UP-DATE AND OVER-VIEW

Re: CHQ:

General Mailing of October, 1993: No sale of CHQ property yet.

General Mailing of December, 1993: "Nineteen ninety-three could well be considered a 'Watershed Year' in the affairs of Technocracy Inc.', and further: "Interest in Technocracy is increasing-slowly to be sure - but is being noted by Technocrats clear across the Continent."

Re: Edmonton nucleus:

Corporate registration: On 17 Jan. 1994, this Extra-Provincial Non-Profit Corporation was re-registered as a valid and subsisting corporation in the Province of Alberta. Cost was \$20.00. Our registration dates from 1983. The original registration was required by the City of Edmonton to justify waiving the Business Tax on non-profit corporations.

See attached copy of Corporate Registry Search. Cost ^{was} \$10.00.

Our Bank Savings Account with the Royal Bank at 109 St. and Whyte Av. stands at \$648.62. Deposits of \$10.00 or so are made periodically to keep the account in good standing. Otherwise a charge is made annually that would soon wipe it out.

1994 membership fees are now due, at \$15.00 US. Additionally CHQ is asking members to make as generous a donation as possible. Head office address is still Savannah, Ohio, 44874.

Walt Fryers

Walt Fryers, Treas.

WHAT DO YOU THINK? WHAT SHOULD WE DO?

QUESTION 1:

CHQ is proposing to sell the property near Savannah, Ohio, where CHQ is presently located, and then to move to somewhere in the Northwest. The announcement in April suggested that the "maintenance" of the property is increasingly difficult and that dues and donations are not sufficient to pay expenses.

Should we--the members--intervene to find out the circumstances behind this drastic move. CHQ has never asked for extra support. Why not? Should we not be concerned about this "collapse", this "retreat"? Why is CHQ so remote, and secretive, so isolated? Are there other strategic reasons for the move?

So--should we intervene? If so - how?

QUESTION 2:

Is the economy (U.S. and Canada) moving into a major crisis that could be more serious than the Great Depression of the 1930's?

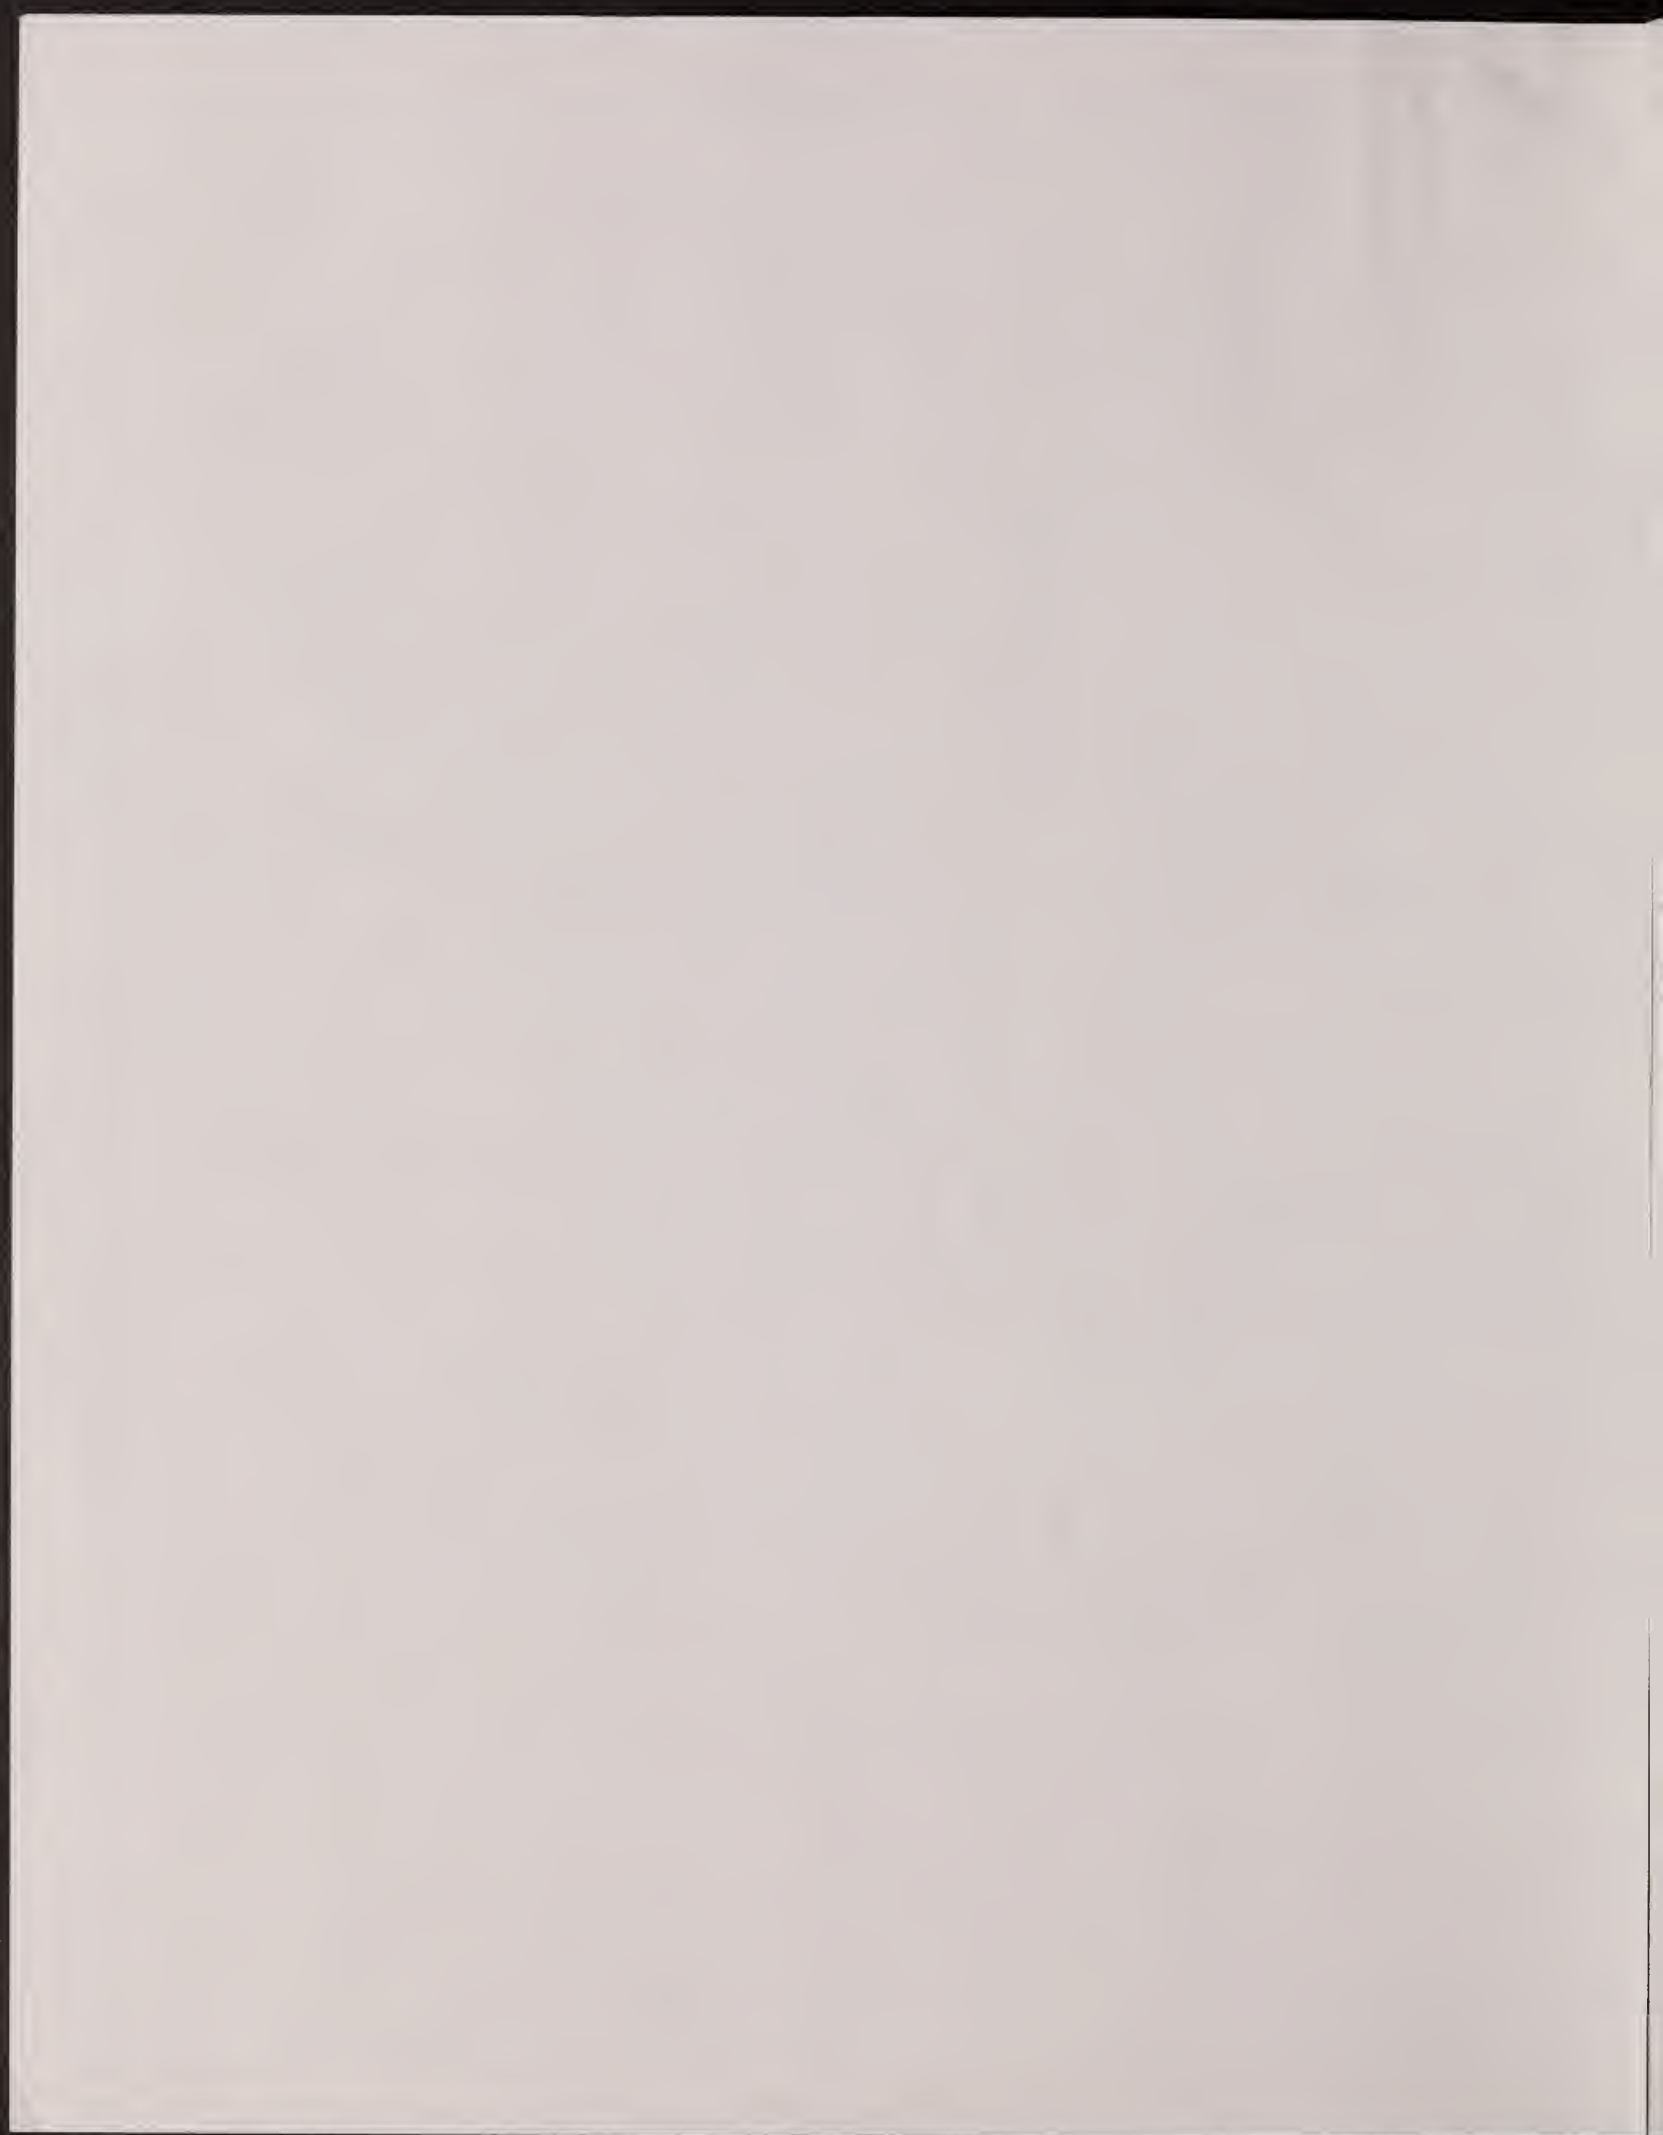

QUESTION 3:

Can Technocracy be revived to play an important (even critical) role in the future?

QUESTION 4:

Should we now (here in Alberta) prepare for a public event (such as a well-advertised public lecture) to be held at some future and appropriate date (say, in 6 or 12 months)? If so, how?

ANSWERS

11515 39 Ave.,
Edmonton, Alta.
T6J 0M5

ph. 434 4496

8 Nov 86

To: Members of 11353-A, Technocracy Inc.

Subject: Wind-up of Unit A, R.D. 11353, Technocracy Inc.

1. The resignation of Walt Fryers as Treasurer of 11353-A on 29th March 1986 was accepted by CHQ's letter of 7 April, 1986.
2. Efforts by CHQ to replace the Treasurer through contacts with the Organizer, Howard Rennick, were unsuccessful.
3. The balance of the Unit executive - Organizer Howard Rennick and Secretary John Gregory - also resigned.
4. It became necessary then for CHQ to terminate the Unit and re-assign all members to Member-at-Large status.
5. The affairs of the Unit have not yet been wound up. There is a small bank balance. There is some furniture and equipment. There is a considerable supply of literature. There is no official mailing address, although mail still comes in. And so on.
6. Some members would favor continuing as an informal group, having no formal structure or location, but meeting occasionally to keep in touch. And then there is always the possibility that someone will appear to take up the 'torch' and begin the organizing task again, taking over the residual records of former Unit A.
7. To give the surviving members of 11353-A a chance to participate in the wind-up process, a meeting of members has been agreed upon by the former executive. It will be in the 'Quiet Room' of the Strathcona Branch of the Royal Canadian Legion, 10416 81 Ave., (ph.433-1908) at 7:30 pm., Friday, 14 Nov 86. Try to be there.
8. If you attend, identify yourself as attending the Technocracy group meeting in the Quiet Room. It is in the basement. Turn right and right again at the bottom of the stairs, then straight ahead to the end room.

For the Edmonton group,

Walt Fryers

Walt Fryers (ex-Treasurer).

cc to Bonnie Gebhardt, Calgary, Alta. (You planned to attend?)

16 Jan 84

TO: Grant C. Ingram, Apt. 1608, 17319 69 Ave., Edmonton, Alta. T5T 3S7

SUBJECT: 1985 Membership Dues.

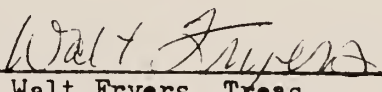

1. In a recent mailing Continental Headquarters (CHQ) advises that the response to their "1984 Dues" letter was such a success that it is again calling upon all members to pay their dues for 1985 in January, if at all possible. In addition to providing essential funds, it greatly simplifies the clerical and accounting work. We can add that it is equally helpful at Unit level.

2. The loss of our office in The HUB on the University Campus has been a severe set-back to this Unit. Our present office on the 3rd floor of the Noble Bldg., on 109 St. (at 86 Ave.) is adequate in size at this stage, but quite unsuitable for public contact. As a result we are in a 'holding pattern' of activity for the present. Eventually this Unit must find some type of 'storefront' premises, centrally located, at reasonable rent. In the meantime it is most important that our membership continue to support the Unit in every possible way: membership dues, pledges, donations, man-hours of work, material, office-holding, management and administration, publicity, literature distribution, letter-writing to publications, public speaking, etc.

3. CHQ has advised that they will soon issue a new gray pamphlet: "History and Purpose of Technocracy" which is the correspondence between Howard Scott and J. Kaye Faulkner of Western Washington State College. This was first published in the Northwest Technocrat in the July, 1965 issue.

4. Also in a recent mailing (1st Dec. 1984) CHQ notes that "More and more analysts and soothsayers of every ilk are coming around to Technocracy's accurate and prophetic analysis". During a Fall visit to the West coast this writer observed that other Sections and Units are experiencing a quickening interest and response from the general public.

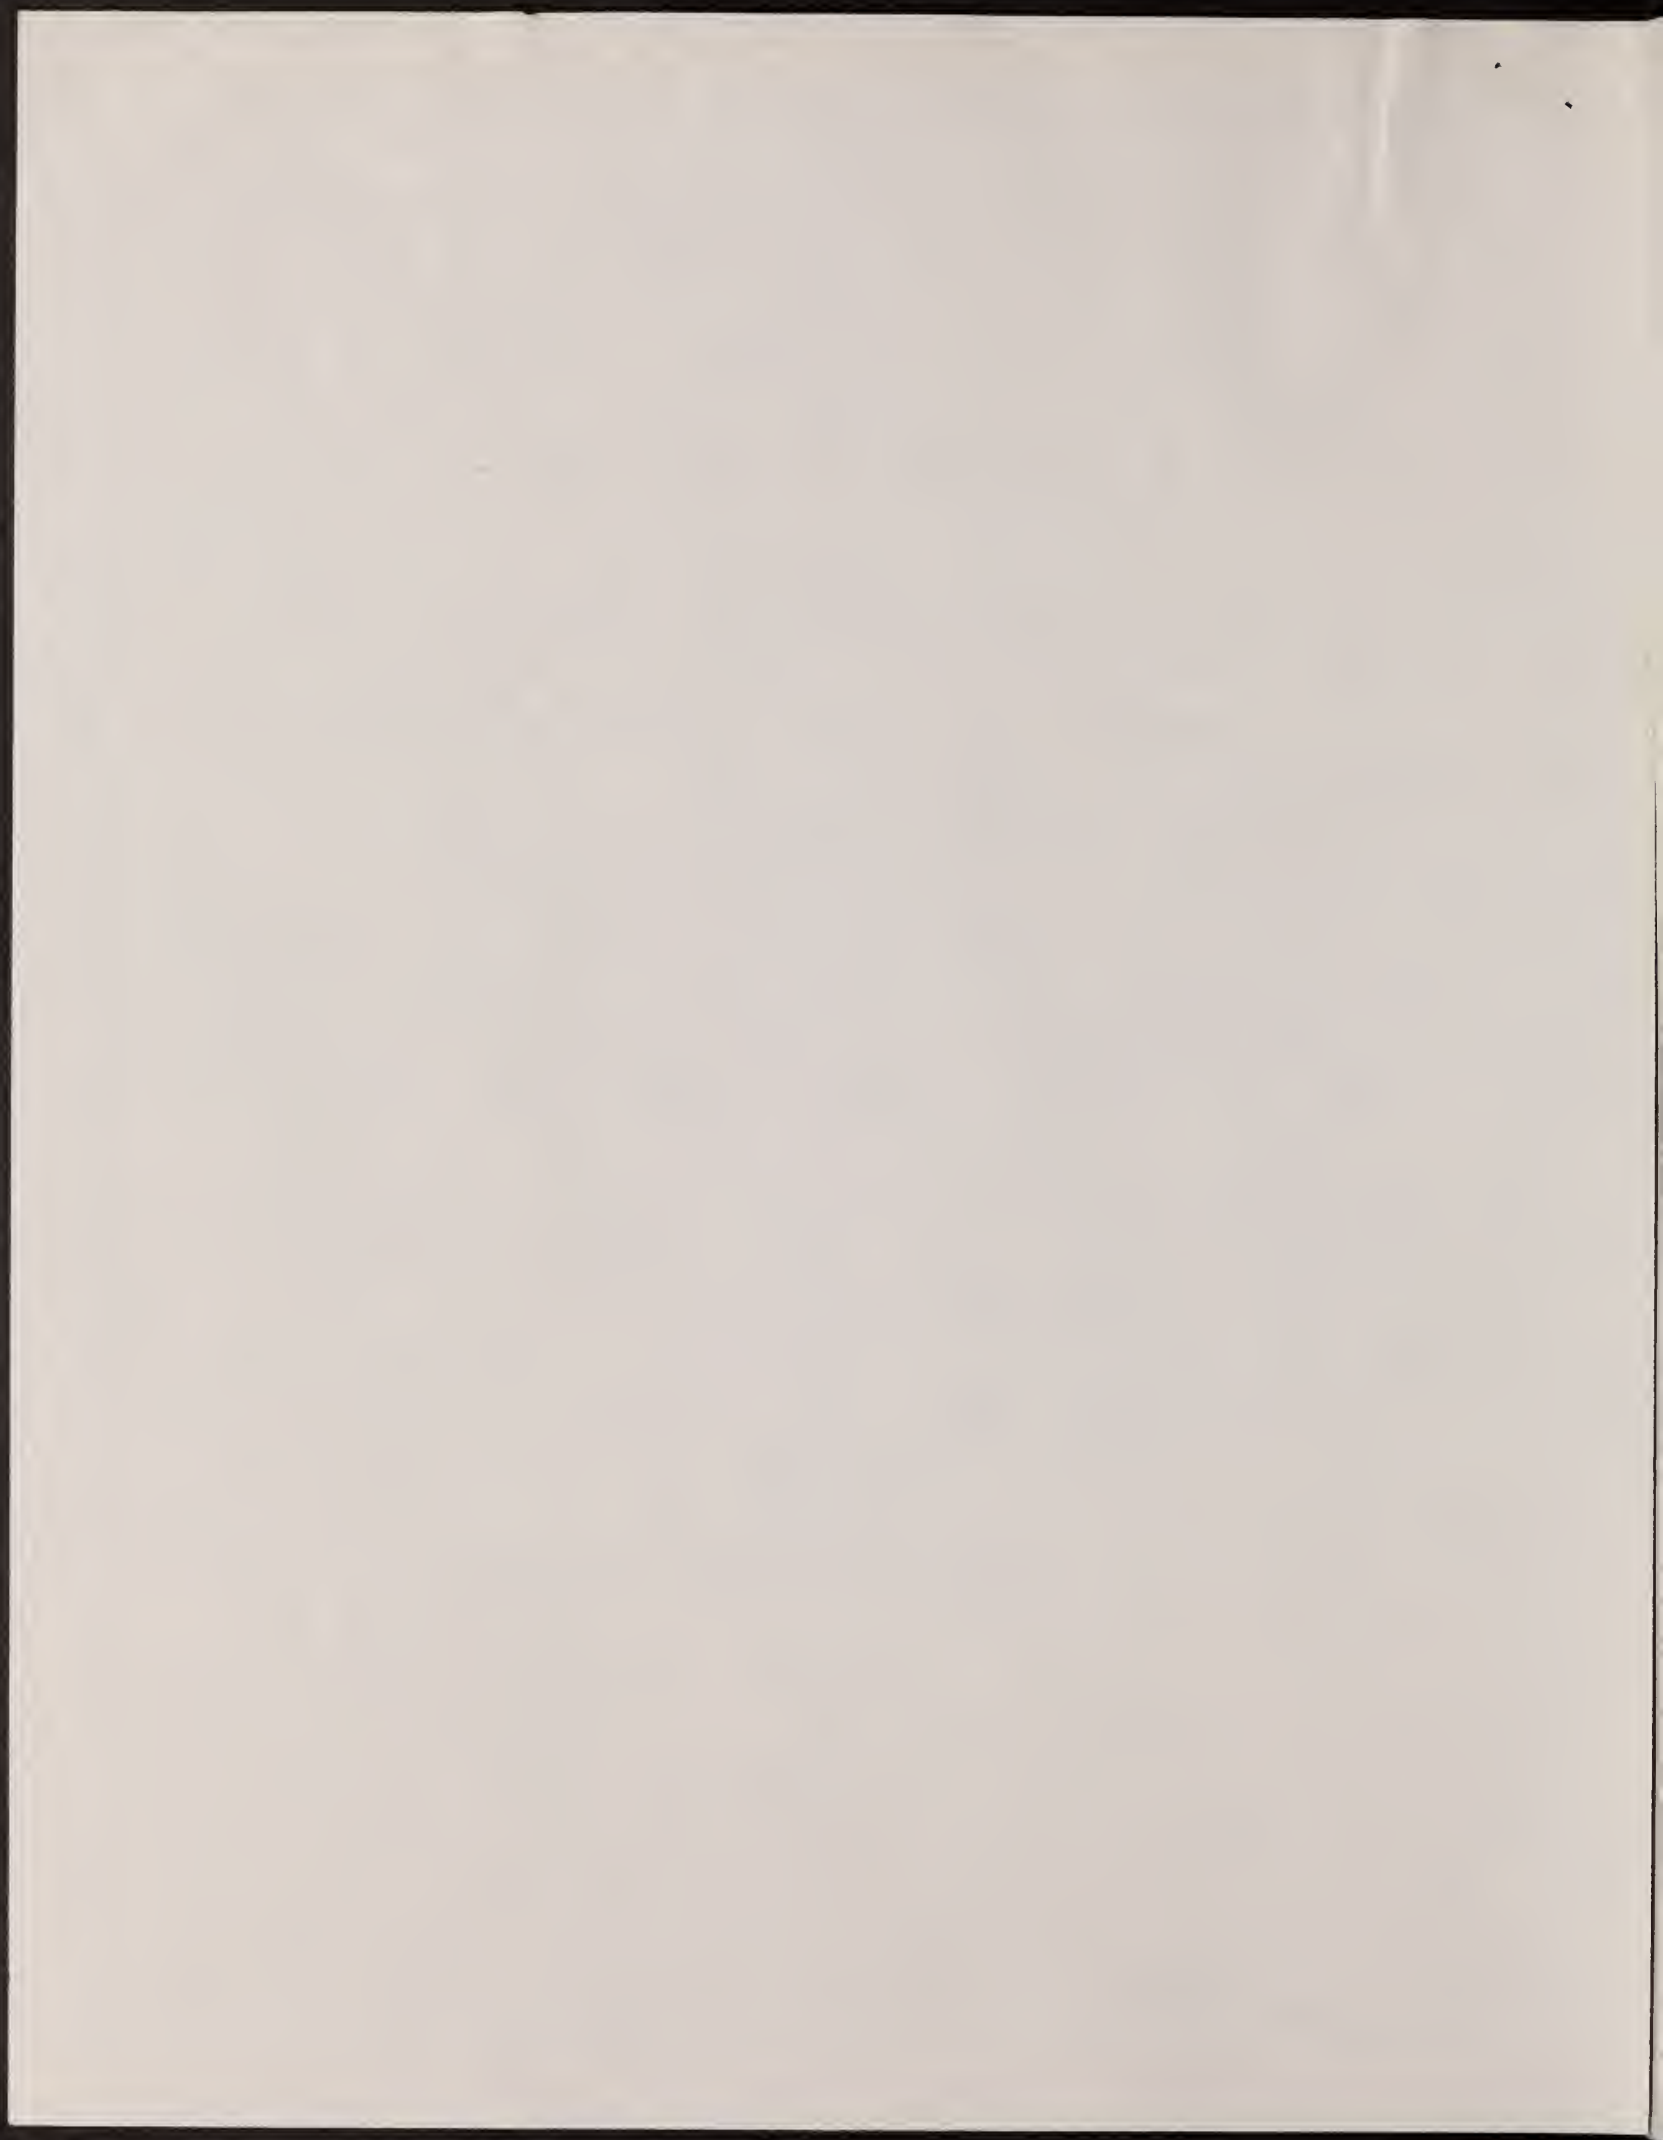

5. If you, too, think that Technocracy should be heard and seen, give us your support. We cannot play our part without it.

Walt Fryers, Treas.,
for Unit A, R.D. 11353,
Technocracy Inc.

Encl.: Amendment to the Bylaws.

Subject: Amendment to the Bylaws
Annual Meeting

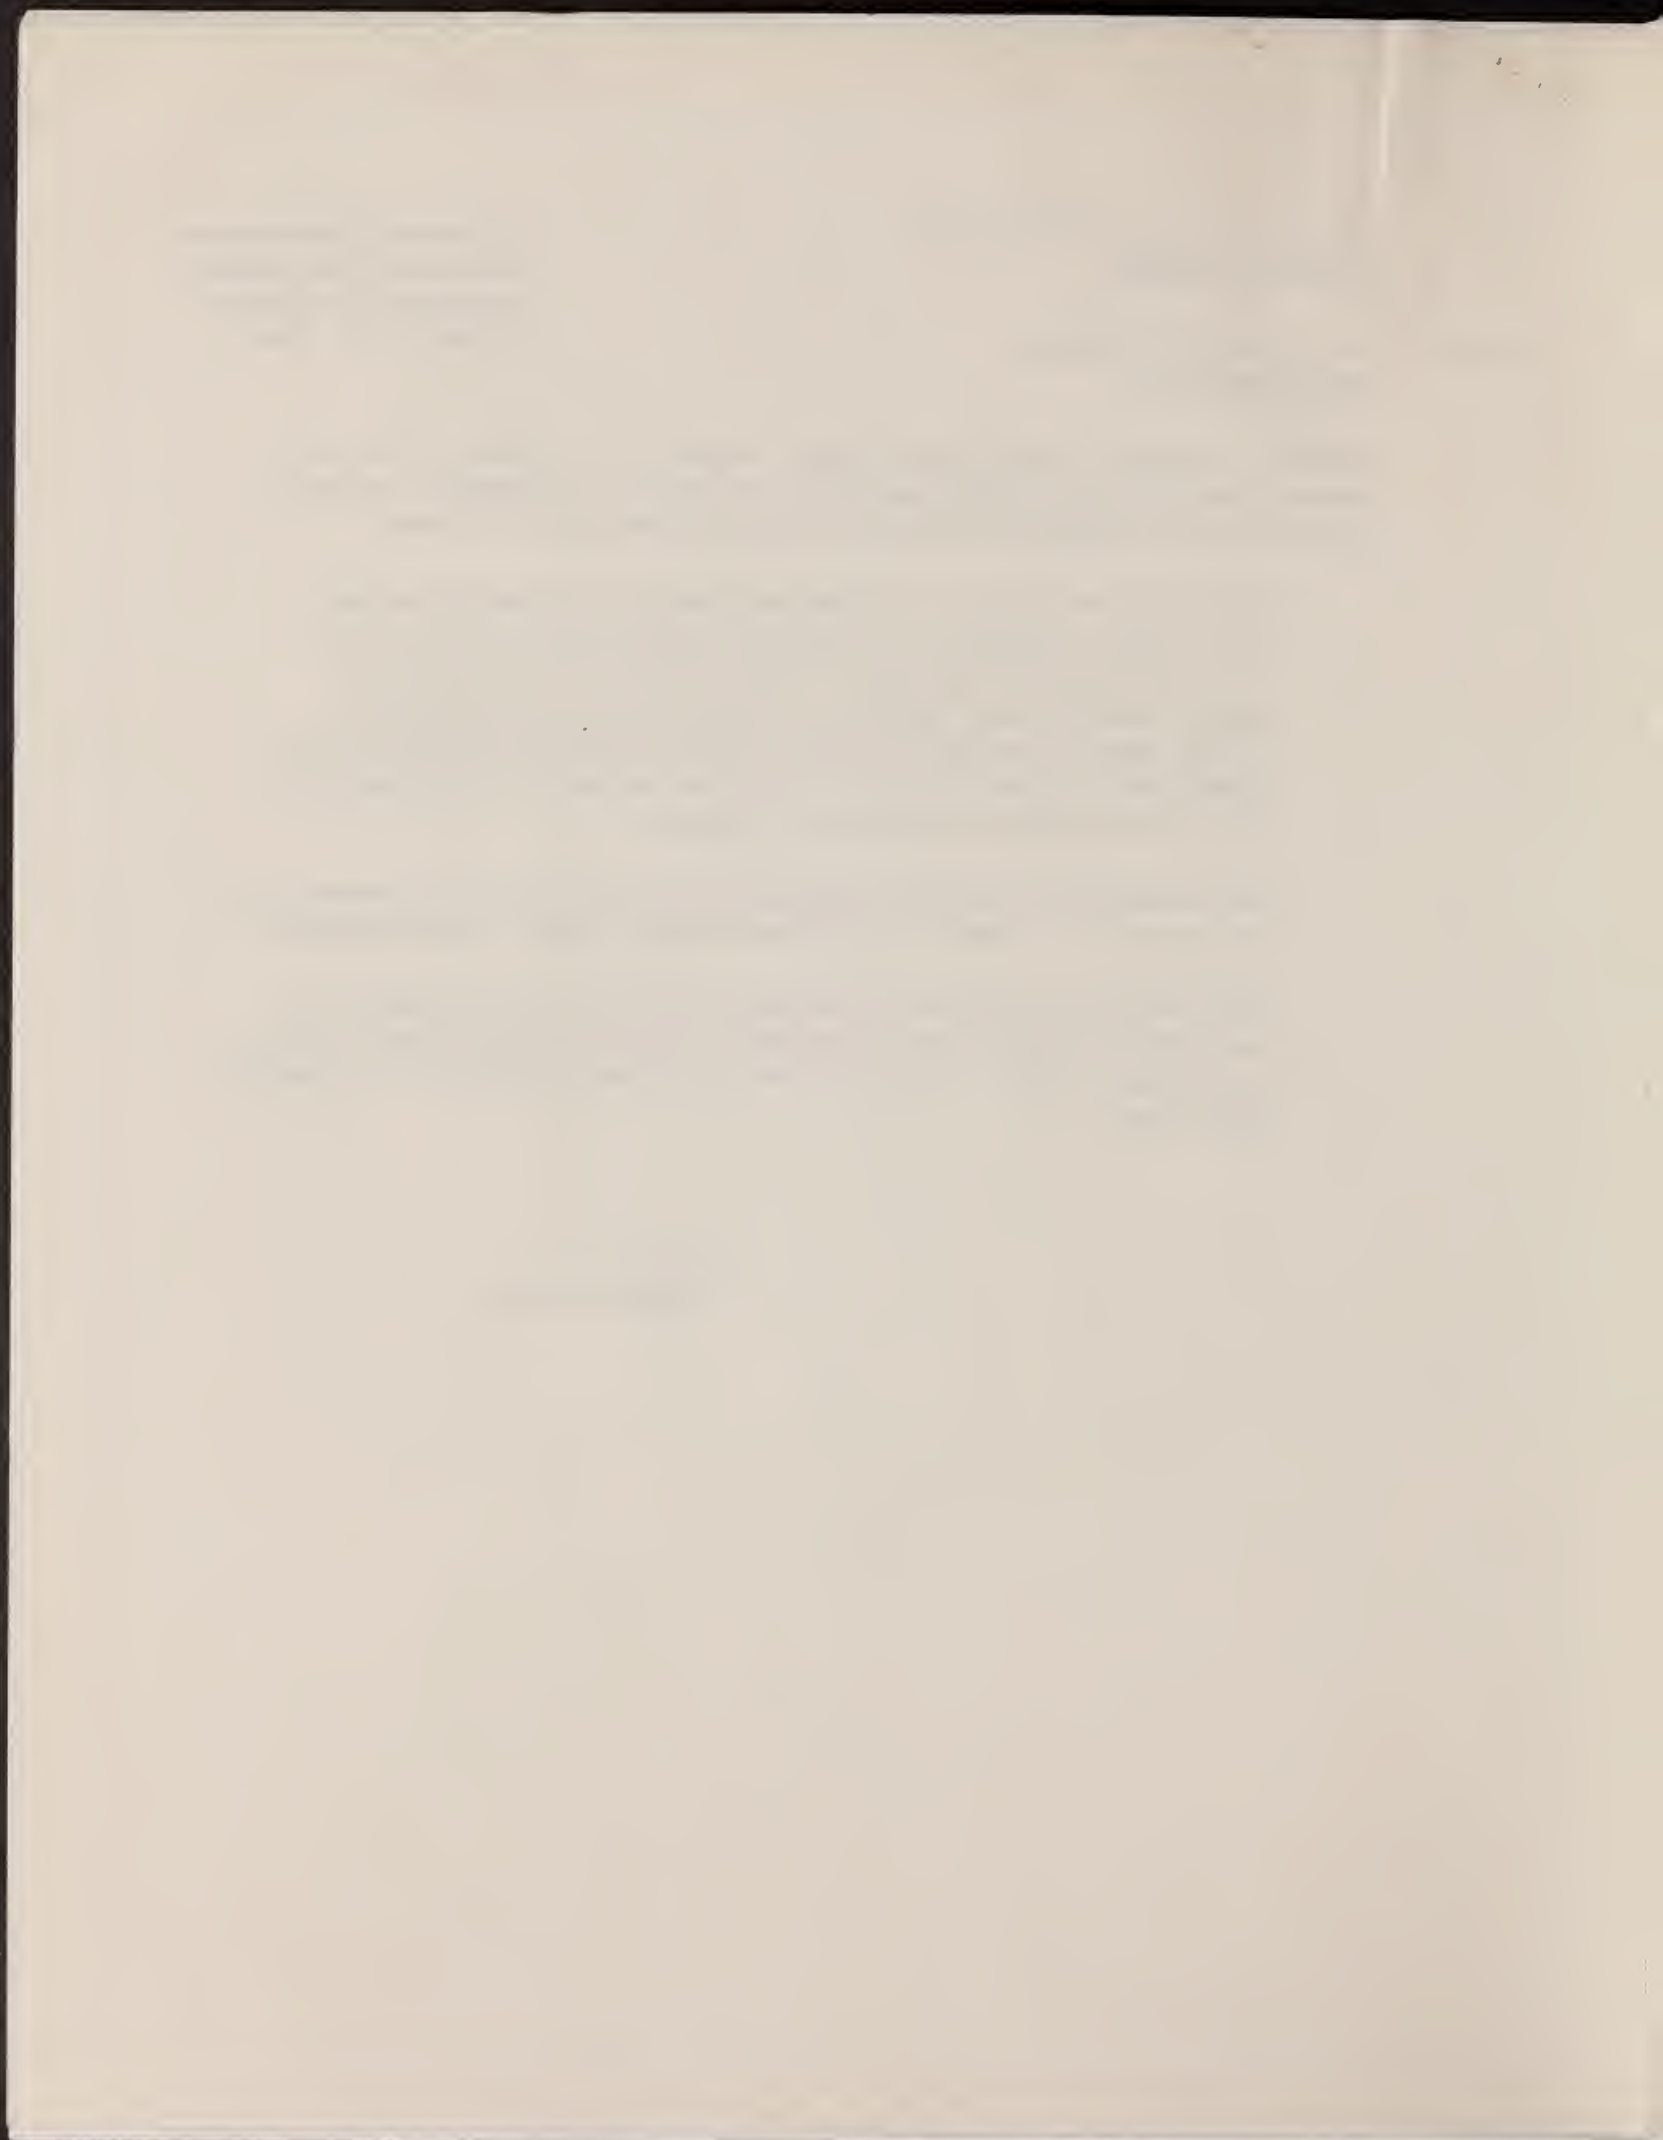

1. Because of inclement weather occurring so frequently on the date of the usual Annual Meeting of the Continental Board of Governors the following resolution was adopted at a Special Meeting of the Board on November 11, 1984:

RESOLVED that the date of the Annual Meeting shall be held on the first Sunday of October, the time to be designated in a letter mailed three months before the meeting. In this letter will be outlined the Agenda for the Annual Meeting, the date and place of the meeting plus the names of the Board members whose term would be expiring. Included with this letter will be a waiver that members will sign and return to CHQ indicating their approval of the Agenda.

Two months before the Annual Meeting the names of the three nominees will be presented in a letter to all the Board Members and Section Delegates.

Thirty days before the Annual Meeting the Ballot will be mailed to the Board Members and Section Representatives (Delegates). The letters will be self-explanatory. All else remains as outlined in the Bylaws and General Regulations.

Technocracy Inc.

REPORT TO
MEMBERSHIP MEETING

21 FEBRUARY, 1983

I. INTRODUCTION

The publicizing of Technocracy has been an uphill battle during the post-war bouyant economy. During the past year or so the economy has slumped badly and many are hurt but most still consider the recession temporary and look forward to an upturn and back to normal. Reality has not yet set in. This is the time for technocrats to strengthen and build up the organization and embark on enhanced activity.

Progress has been modest because of lack of membership support and participation. The bulk of the Unit's effort is still carried by Walt Fryers.

We are pleased at this time to present the following progress report for the past year - 1982.

II. ORGANIZATION

1. After 5 years of exceptional service in establishing, organizing and maintaining the Technocracy office at HUB, Walt Fryers has relinquished his position as Organizer of the Edmonton Unit. He is still most active and in fact still carries the bulk of the load in his present capacity as Treasurer.

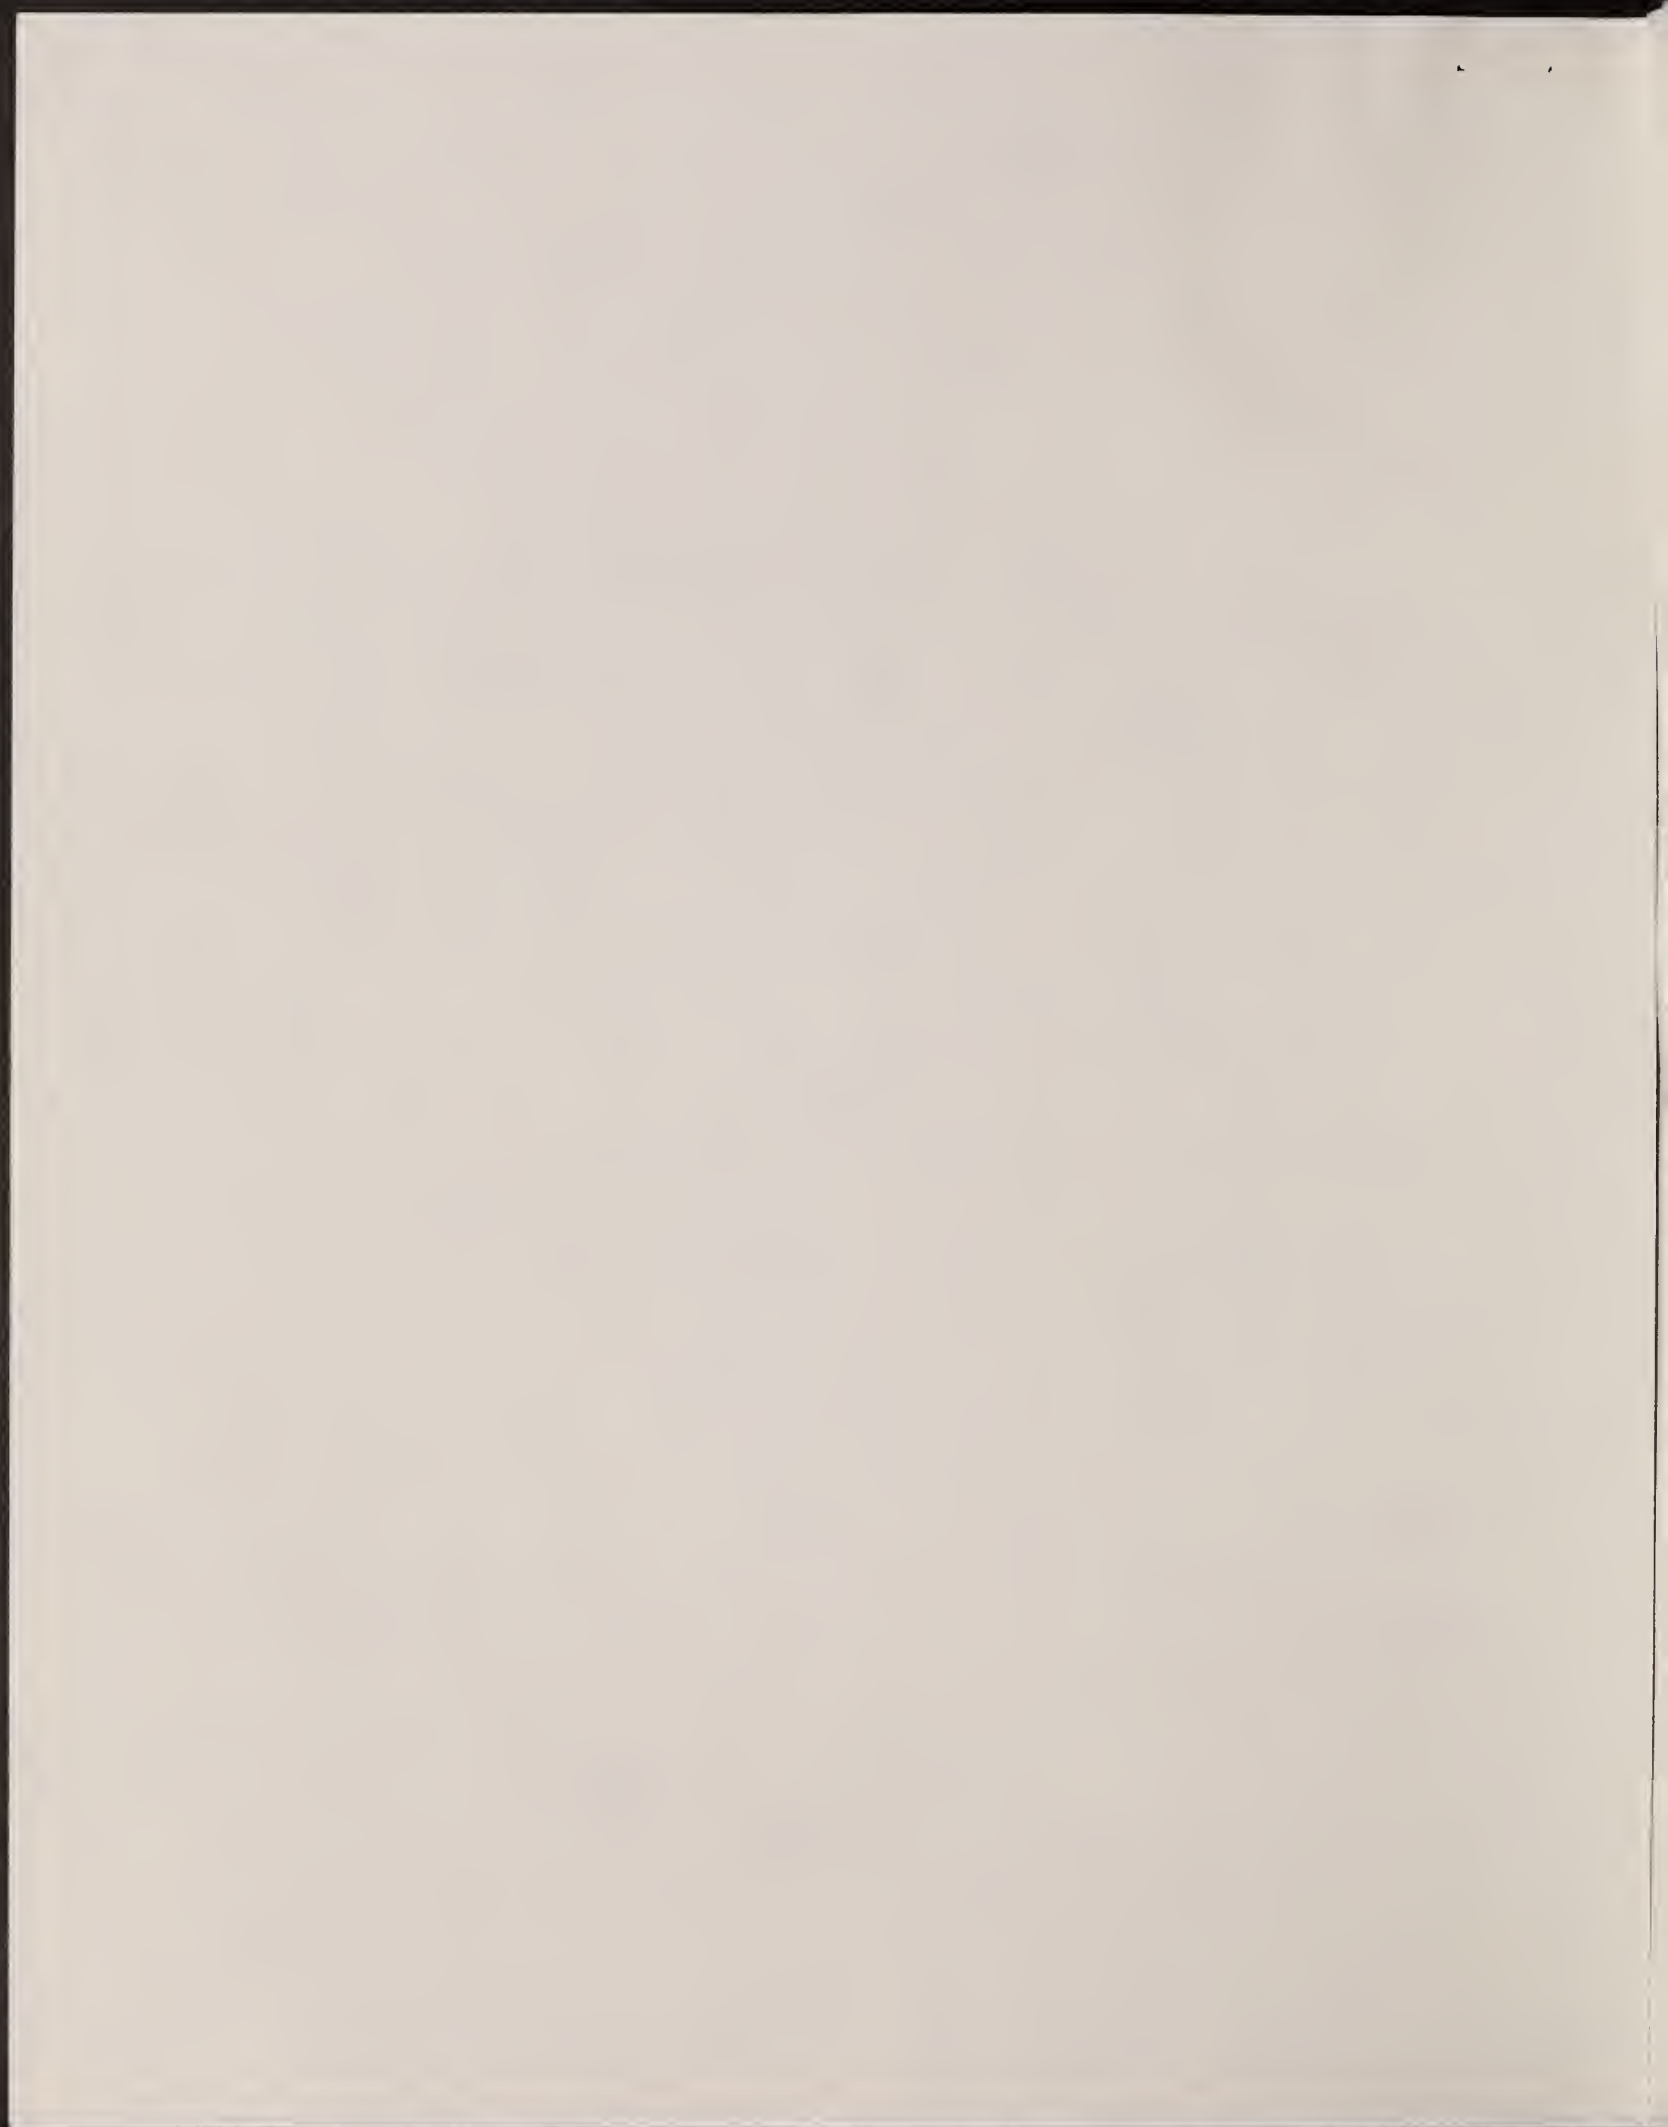

The officers of the Unit for this year are as follows:

Organizer - Howard Rennick
Treasurer - Walt Fryers
Secretary - Jack Gregory

2. Operation of office: The office is open generally from 2:00 to 4:30 daily during the working week, primarily by Walt Fryers. This function entails all facets of office operation:

(a) Correspondence:

- . CHQ, other sections, Units, members;
- . Organization and arrangements for meetings, displays, etc.;
- . Generally all matters pertaining to the outside.

- (b) Collection of money, keeping records, banking.
- (c) Sending monthly reports to CHQ on Unit activities;
- (d) Ordering, stamping, stapling of literature, organizing its storage and keeping track of sales;
- (e) Maintaining and up-dating window display;
- (f) On the look out for new opportunities for publicizing Technocracy;
- (g) Housekeeping duties;
- (h) Discussions on Technocracy with drop-ins, including sign-ups.

III. ANNIVERSARIES

This is the 50th anniversary of the incorporation of Technocracy Inc. and it is also 6 years since the opening of the HUB office.

These anniversaries should provide some inspiration to get more active.

IV. PUBLIC PRESENTATIONS

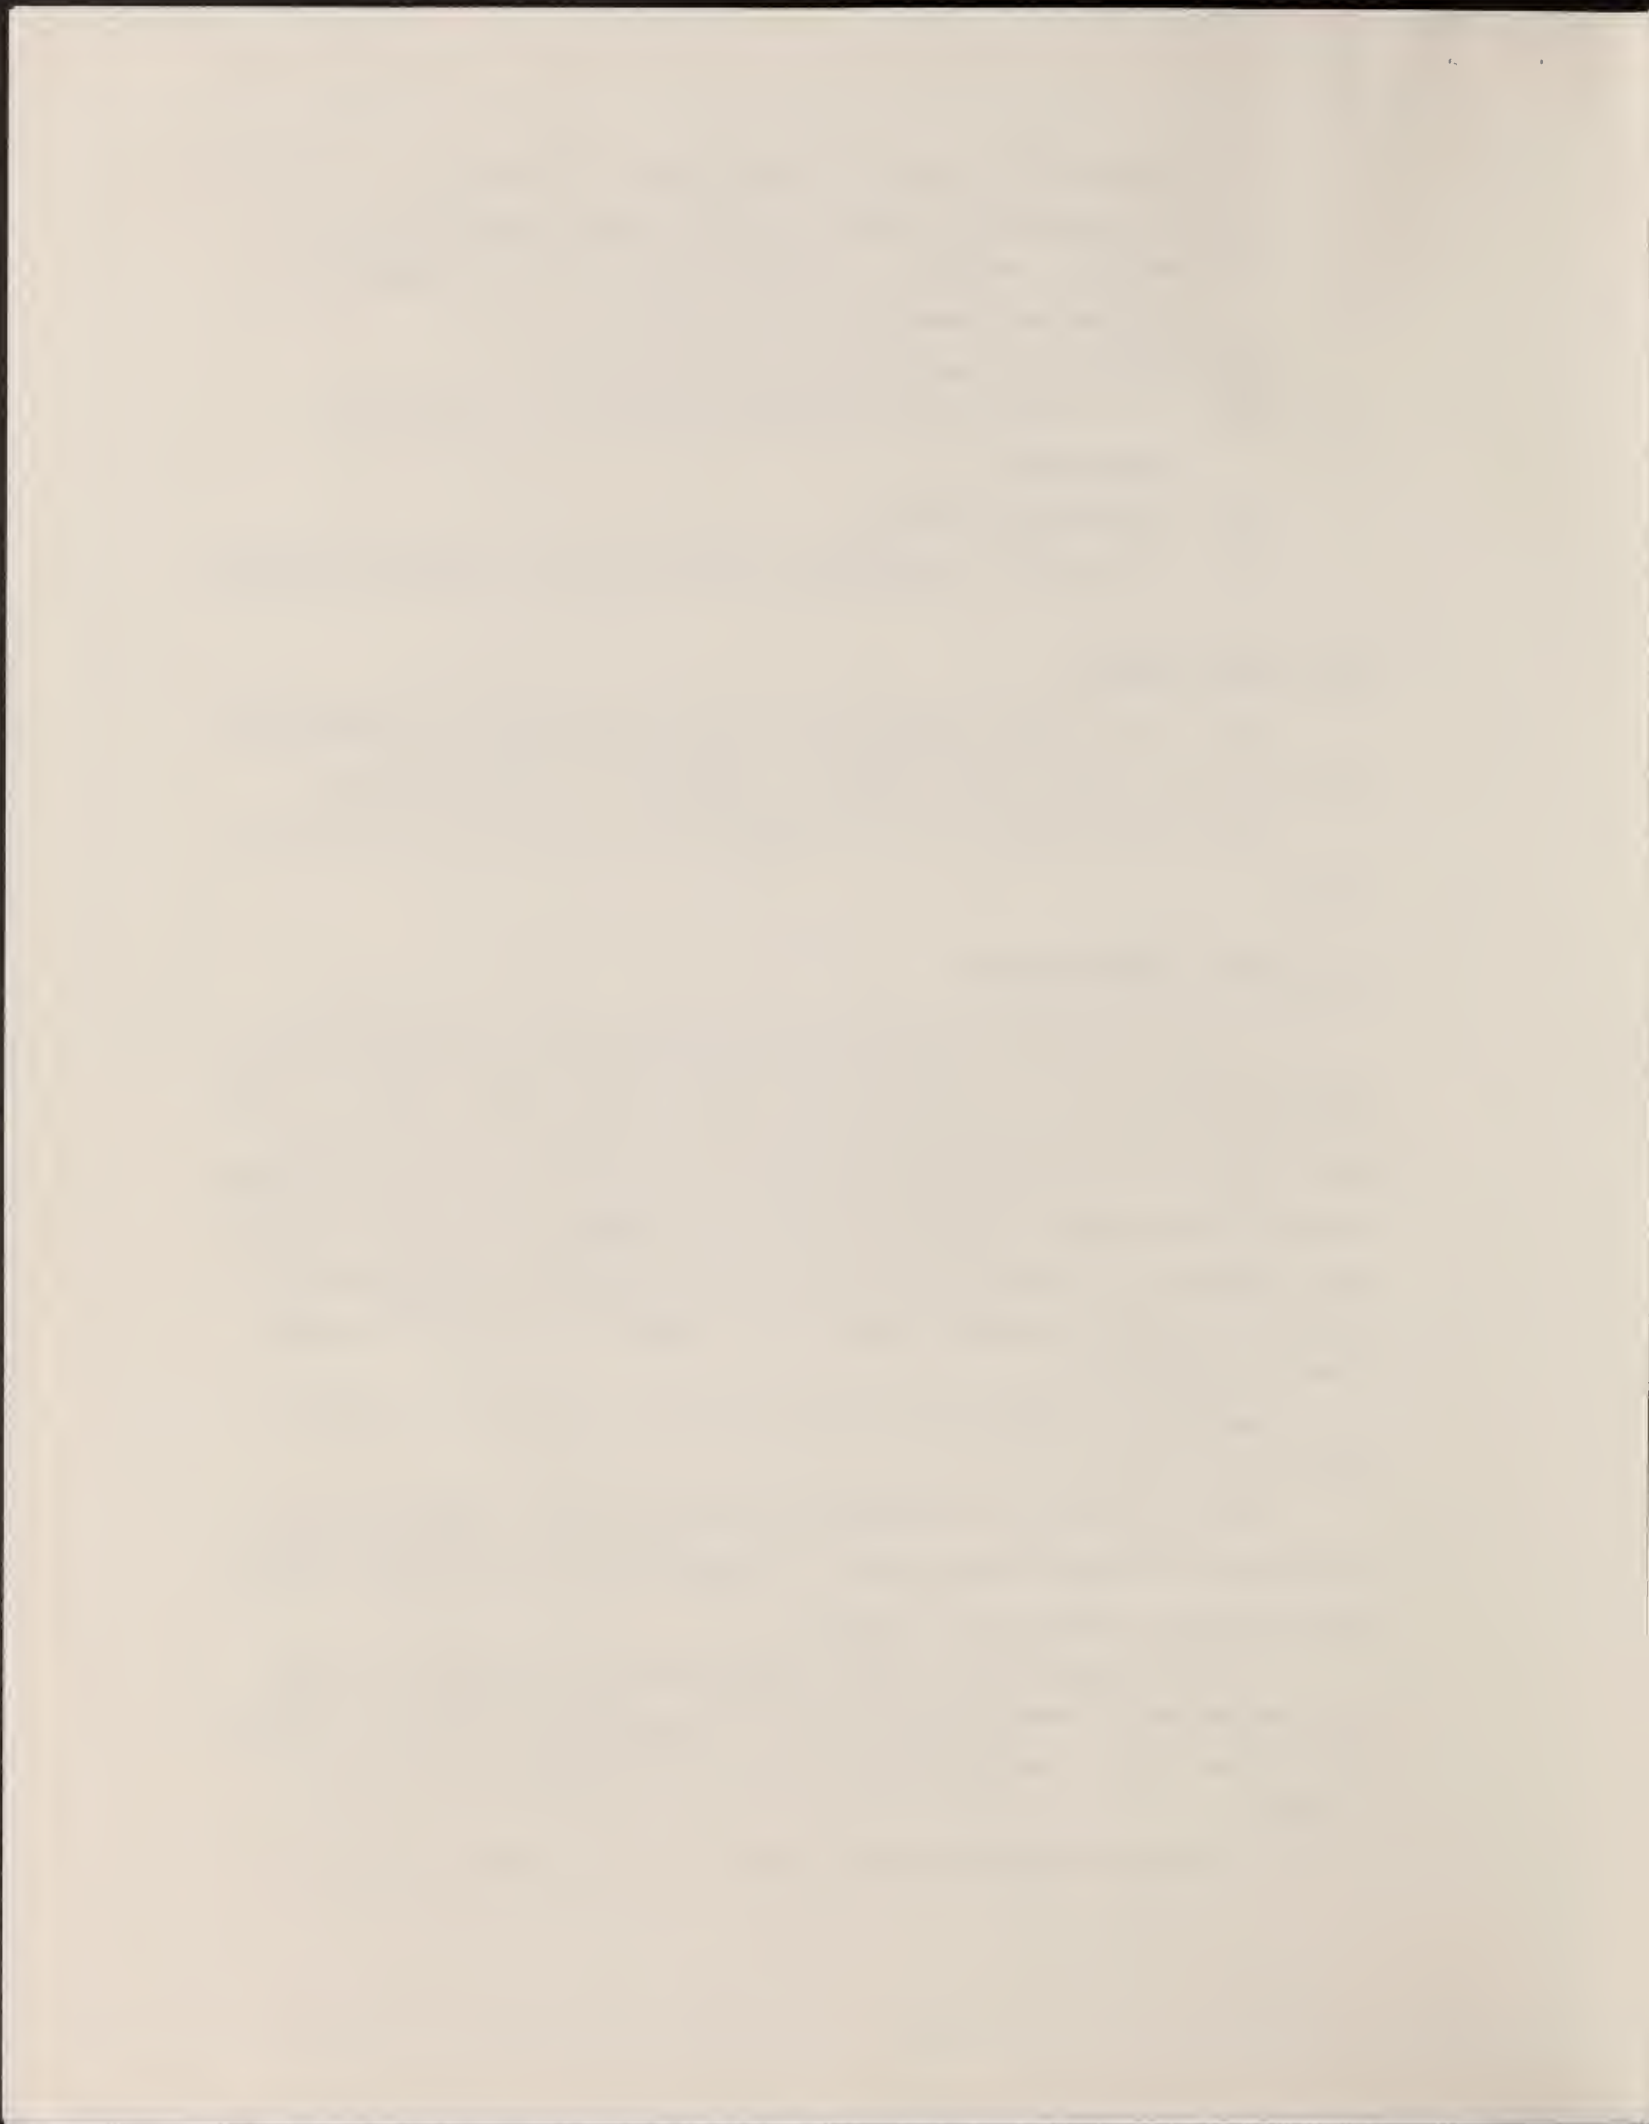

1. Basic presentations with Vue-graph slides are made every Tuesday night here in the 92nd Avenue Lounge (the Purple Lounge). There is no advertising for these meetings but a few passers-by drop in and also stop by at the literature display in the Mall outside this room for discussion with members manning the table. Members are urged to come to these meetings to increase the audience; to distribute literature; to talk with interested persons that stop by; and to develop into public speakers themselves.

Members are also urged to bring down any friends or others to hear of the subject.

These meetings also provide an opportunity for members to meet to discuss all matters pertaining to Technocracy, to this Unit, and to organizational activities in general.

2. Our speakers will offer presentations to any group in the City and beyond. Members are invited to arrange such meetings in their own circles. These meetings have no cost and provide a receptive audience.

3. Two presentations were made at a 2-day "Spring Festival"

conference at King's College, 97 St. and 108 Ave., Edmonton, March 27 & 28, 1982.

4. March 5/82 presentation to Phil. 365 class, U of A.
5. March 11/82 presentation to Art & Design class, U of A.
6. A presentation was made January 31st, 1983 to a Fraternity group "ΦΔΓ". 12 students were present. Some literature was distributed.
7. February 17, 1983 presentation to Art and Design class, U of A.

V. DISPLAY BOOTHS

1. Teachers' Conventions.

A literature display booth was set up and manned at the Greater Edmonton Teachers' Convention at the Westin Hotel on Feb. 25 & 26, 1982. The registration was around 5000, offering a good opportunity for exposure and literature distribution.

This year we have arranged for literature display booths at two teachers' conventions:

Feb. 24 & 25 - Greater Edmonton Teachers' Convention at Terrace Inn.

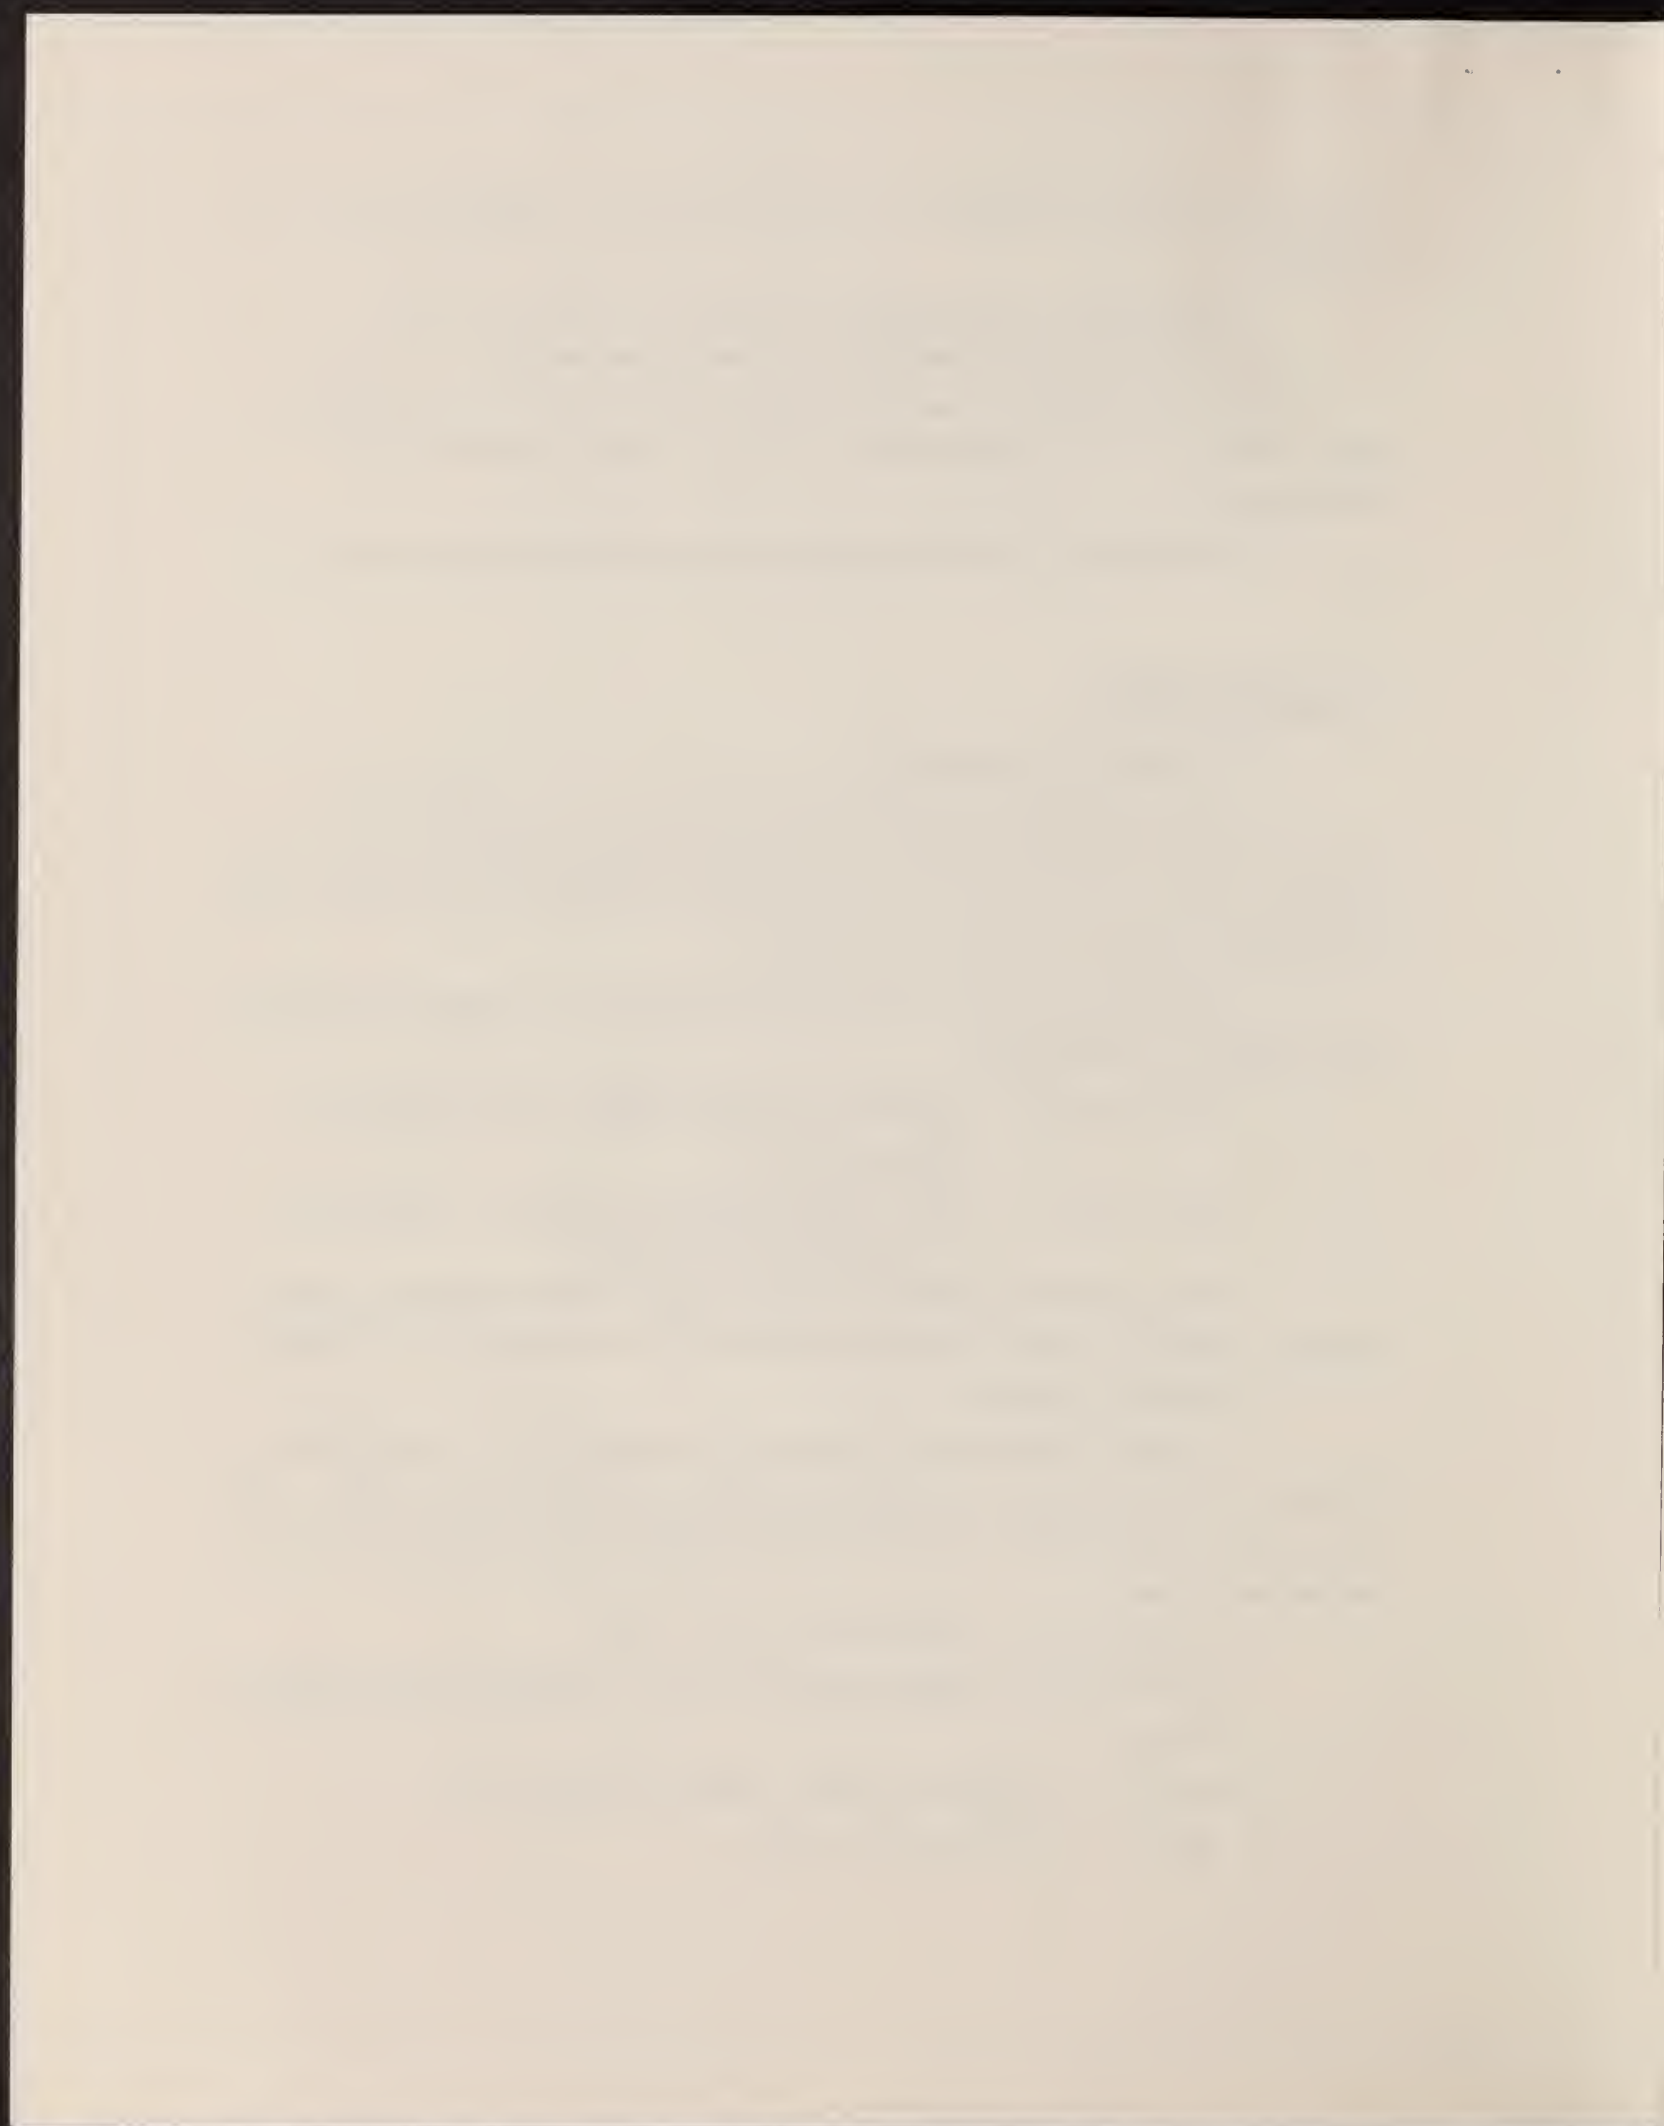

Mar. 3 & 4 - East Central Alberta Teachers' Convention at Convention Inn South.

We would like members to offer their time to help man these booths. There are costs involved and we want to maximize our efforts.

2. King's College.

A large display was set up at the front of the auditorium at King's College during the Spring Festival, March 27 & 28, 1982. This display ran concurrently with the presentations in the class rooms on the second floor.

3. March 27, 28, 1982 Reading Week, HUB.
4. March 27, 28, 1982 Bridging the Gap - Basement Tory Building, U of A.
5. April 18, 1982 Solar Fair, Rundle Heights Park.
6. May 1, 2, 1982 Capilano Mall.

VI. VISUAL AIDS

1. Vu-Graph Slides

The basic presentation on Tuesday evenings utilizes Vu-Graph slides prepared by Arvid Petersen of Seattle. Some of these have become faded through use and Walt Fryers has purchased an additional quantity while visiting Arvid Petersen in July 1982.

2. Displays of current and relevant news items are maintained and up-dated on the HUB office windows.

3. Caramate projector. A sustained program of publicity in the media (TV, Radio, Newspapers, Magazines, etc.) is very expensive and far beyond our reach. In lieu, we have tried to develop our audio-visual capabilities using Vu-graph slides for overhead projection, and 35 mm slides. Our latest acquisition is a Caramate projector for 35 mm slides which includes synchronized cassette for voice. Projection can be on a conventional screen or on the small screen of the Caramate itself. Cost was in excess of \$700 for the machine. A small library of tape-slide presentations will be developed. At present the Caramate projects suitable slides on a translucent screen on our office window facing onto the HUB Mall. Sound will be added.

4. 35 mm slides. Our major acquisition to date is a 121 slide series by Arvid Petersen titled: "The Scientific Method: An Introduction to Technocracy." These have been used at Teachers' Conventions and such.

VII. MEDIA PUBLICITY

1. On November 19th, 1982 Pete Brewster, of the Business Section of the Edmonton Journal wrote an article with reference to Technocracy. This drew letters to the editor from Walt Fryers and J. Gregory. Subsequently we took Pete Brewster to lunch followed by a telephone conversation between Walt and Pete.

2. The article on the Human Side of Energy by Walt Fryers and John Gregory which was presented to the International Forum in August

1981 was reprinted in the Feb.Mar.Apr. 1982 issue of Technocracy Digest.

VIII. LITERATURE - WALT FRYERS

1. Technocracy literature is distributed at all meetings and displays listed above.

2. Take-One boxes containing Briefs (usually "Triplets" consisting of Briefs #28, #29, and #50) are maintained outside the Technocracy Office in the HUB Mall, and also in a laundromat in the HUB. Members are invited to set up and maintain Take-One boxes in other locations.

3. Members are asked to assist in literature distribution such as: submitting subscriptions to libraries, to chairmen of University Departments, etc. Placing Technocracy Literature in newsstands, waiting offices, etc.

4. About 400 copies of a locally designed leaflet were printed for general distribution.

5. Assistance is requested for stamping, collating and stapling of literature.

6. Printing of leaflet - 1000.

IX. VISITORS DURING 1982

Ralph Bartlett, Vancouver

Louie Kildaw, North Battleford

Oscar Isaac, Medicine Hat

Helen Diemert, Calgary

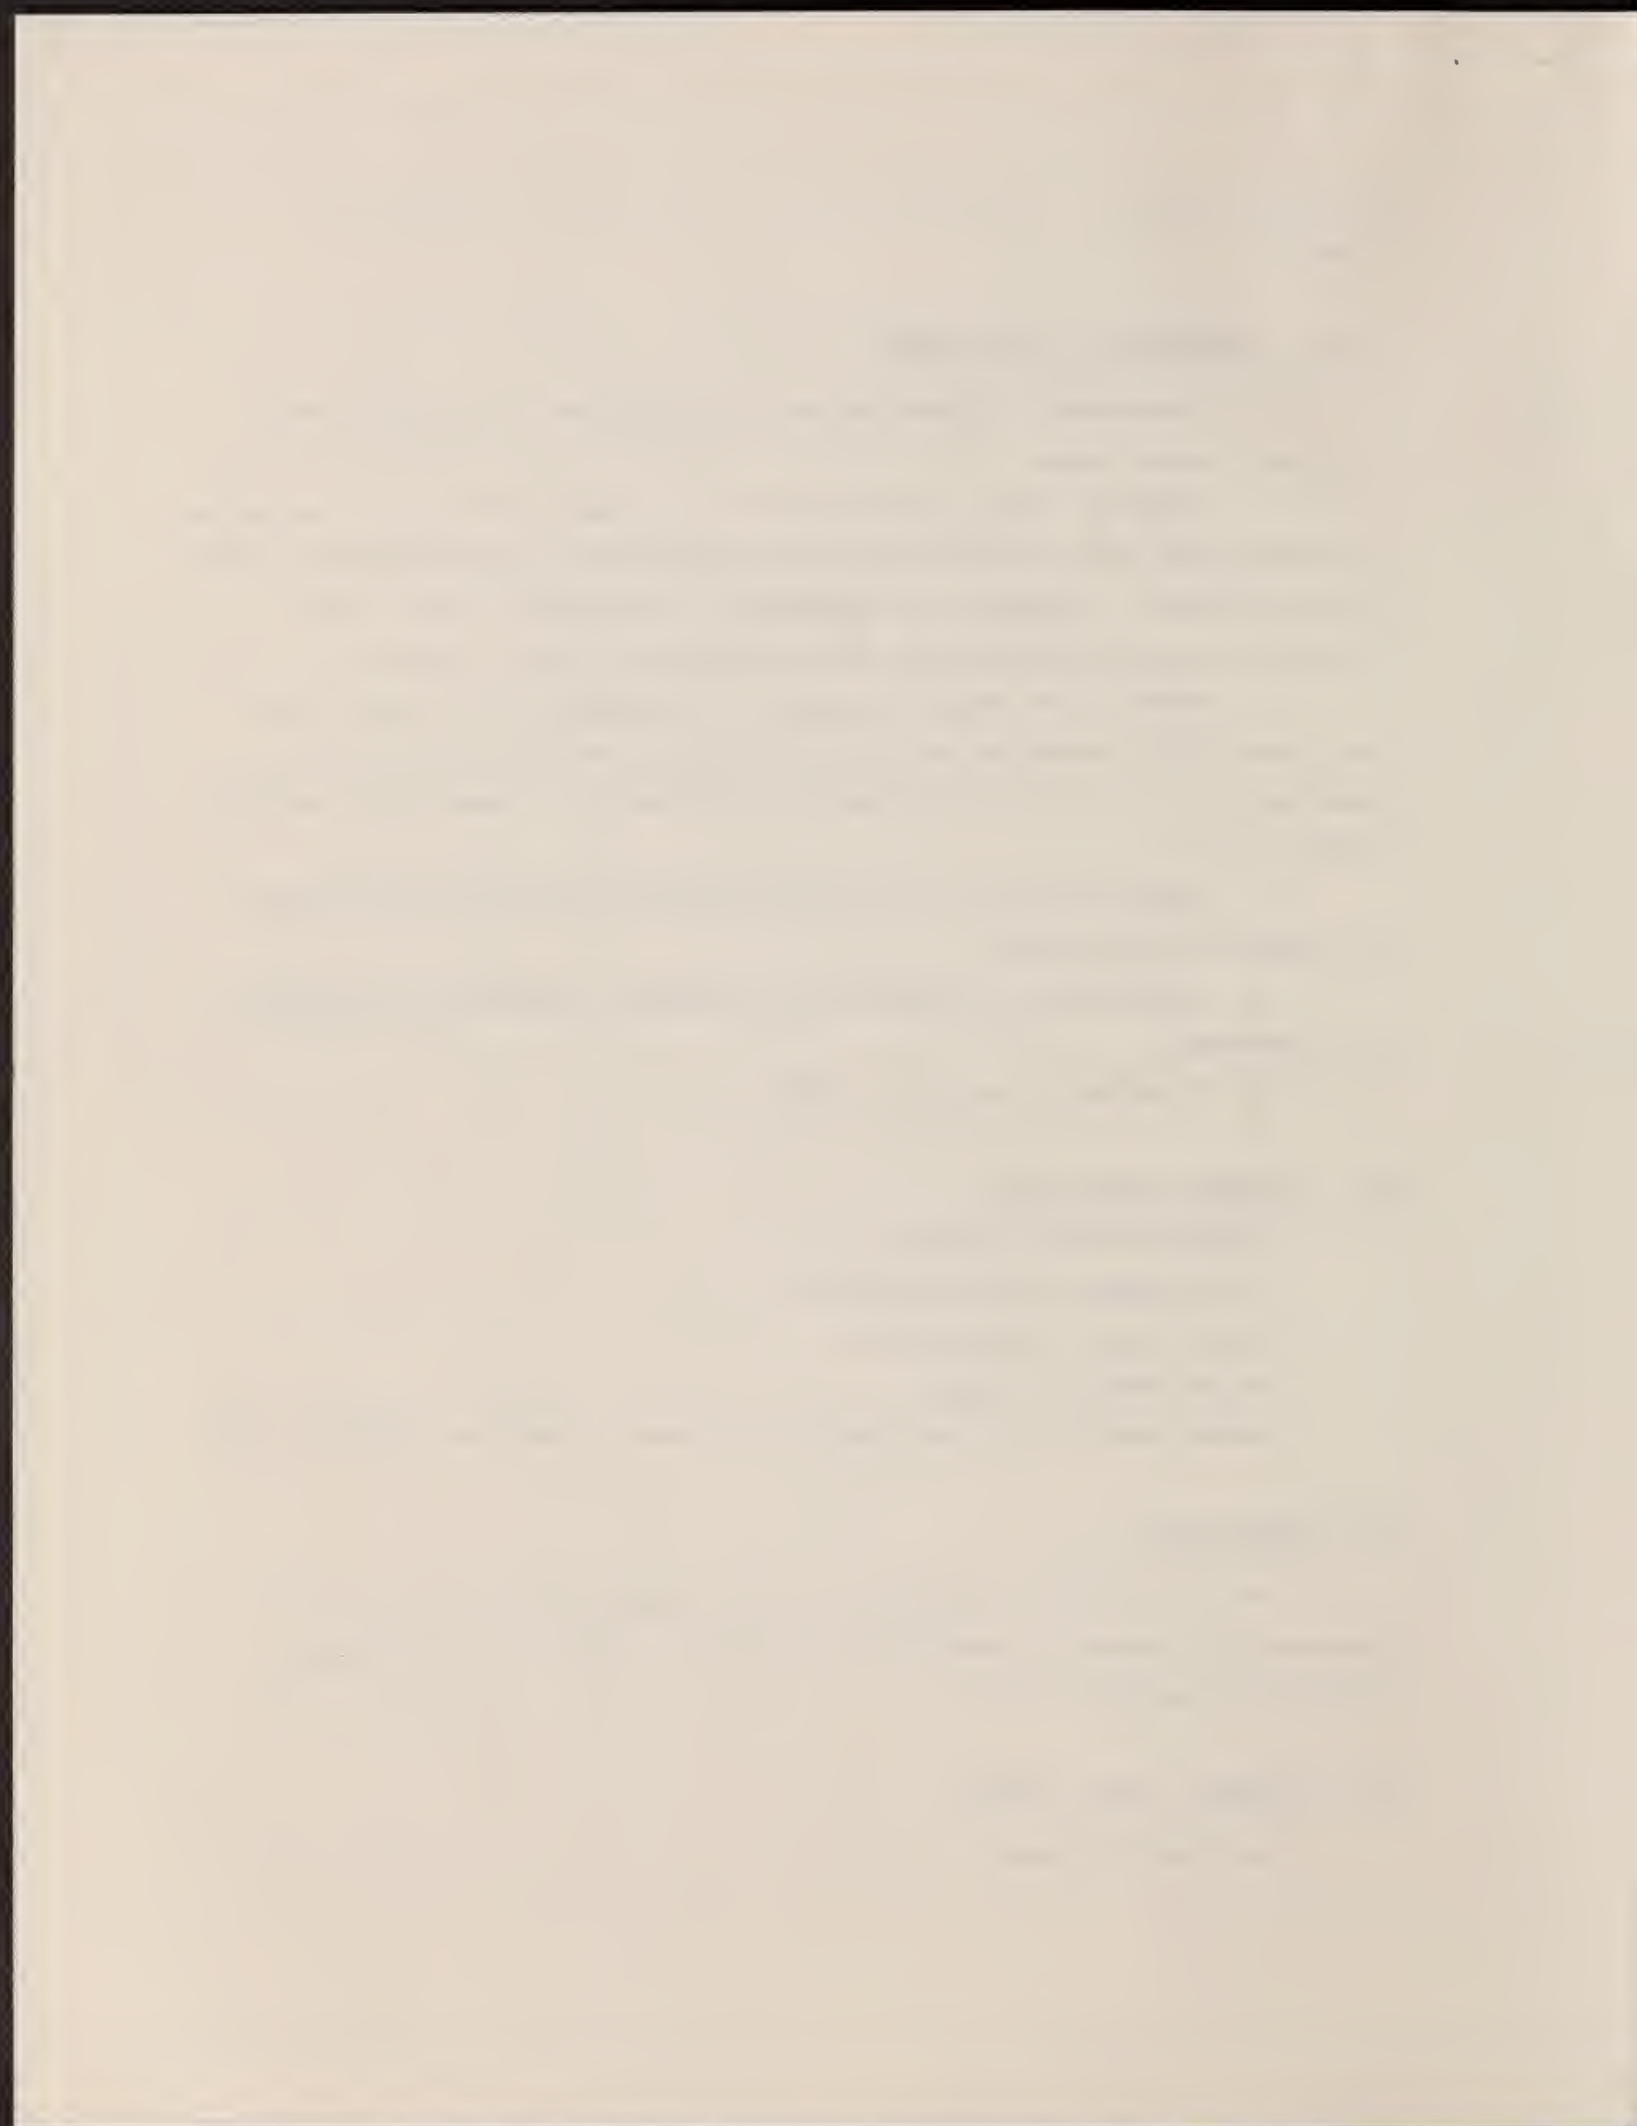

Howard Rennick to Area Meet in Vancouver, Labor Day Weekend, 1982.

X. UNIVERSIADE

The world wide universities sports competition will be held in Edmonton this summer. Some thought should be given to publicizing Technocracy at this event.

XI. FINANCE - WALT FRYERS

Attached statement.

11353-A
TECHNOCRACY
INC.

16 Feb 83

TO: All Members in the Edmonton Region

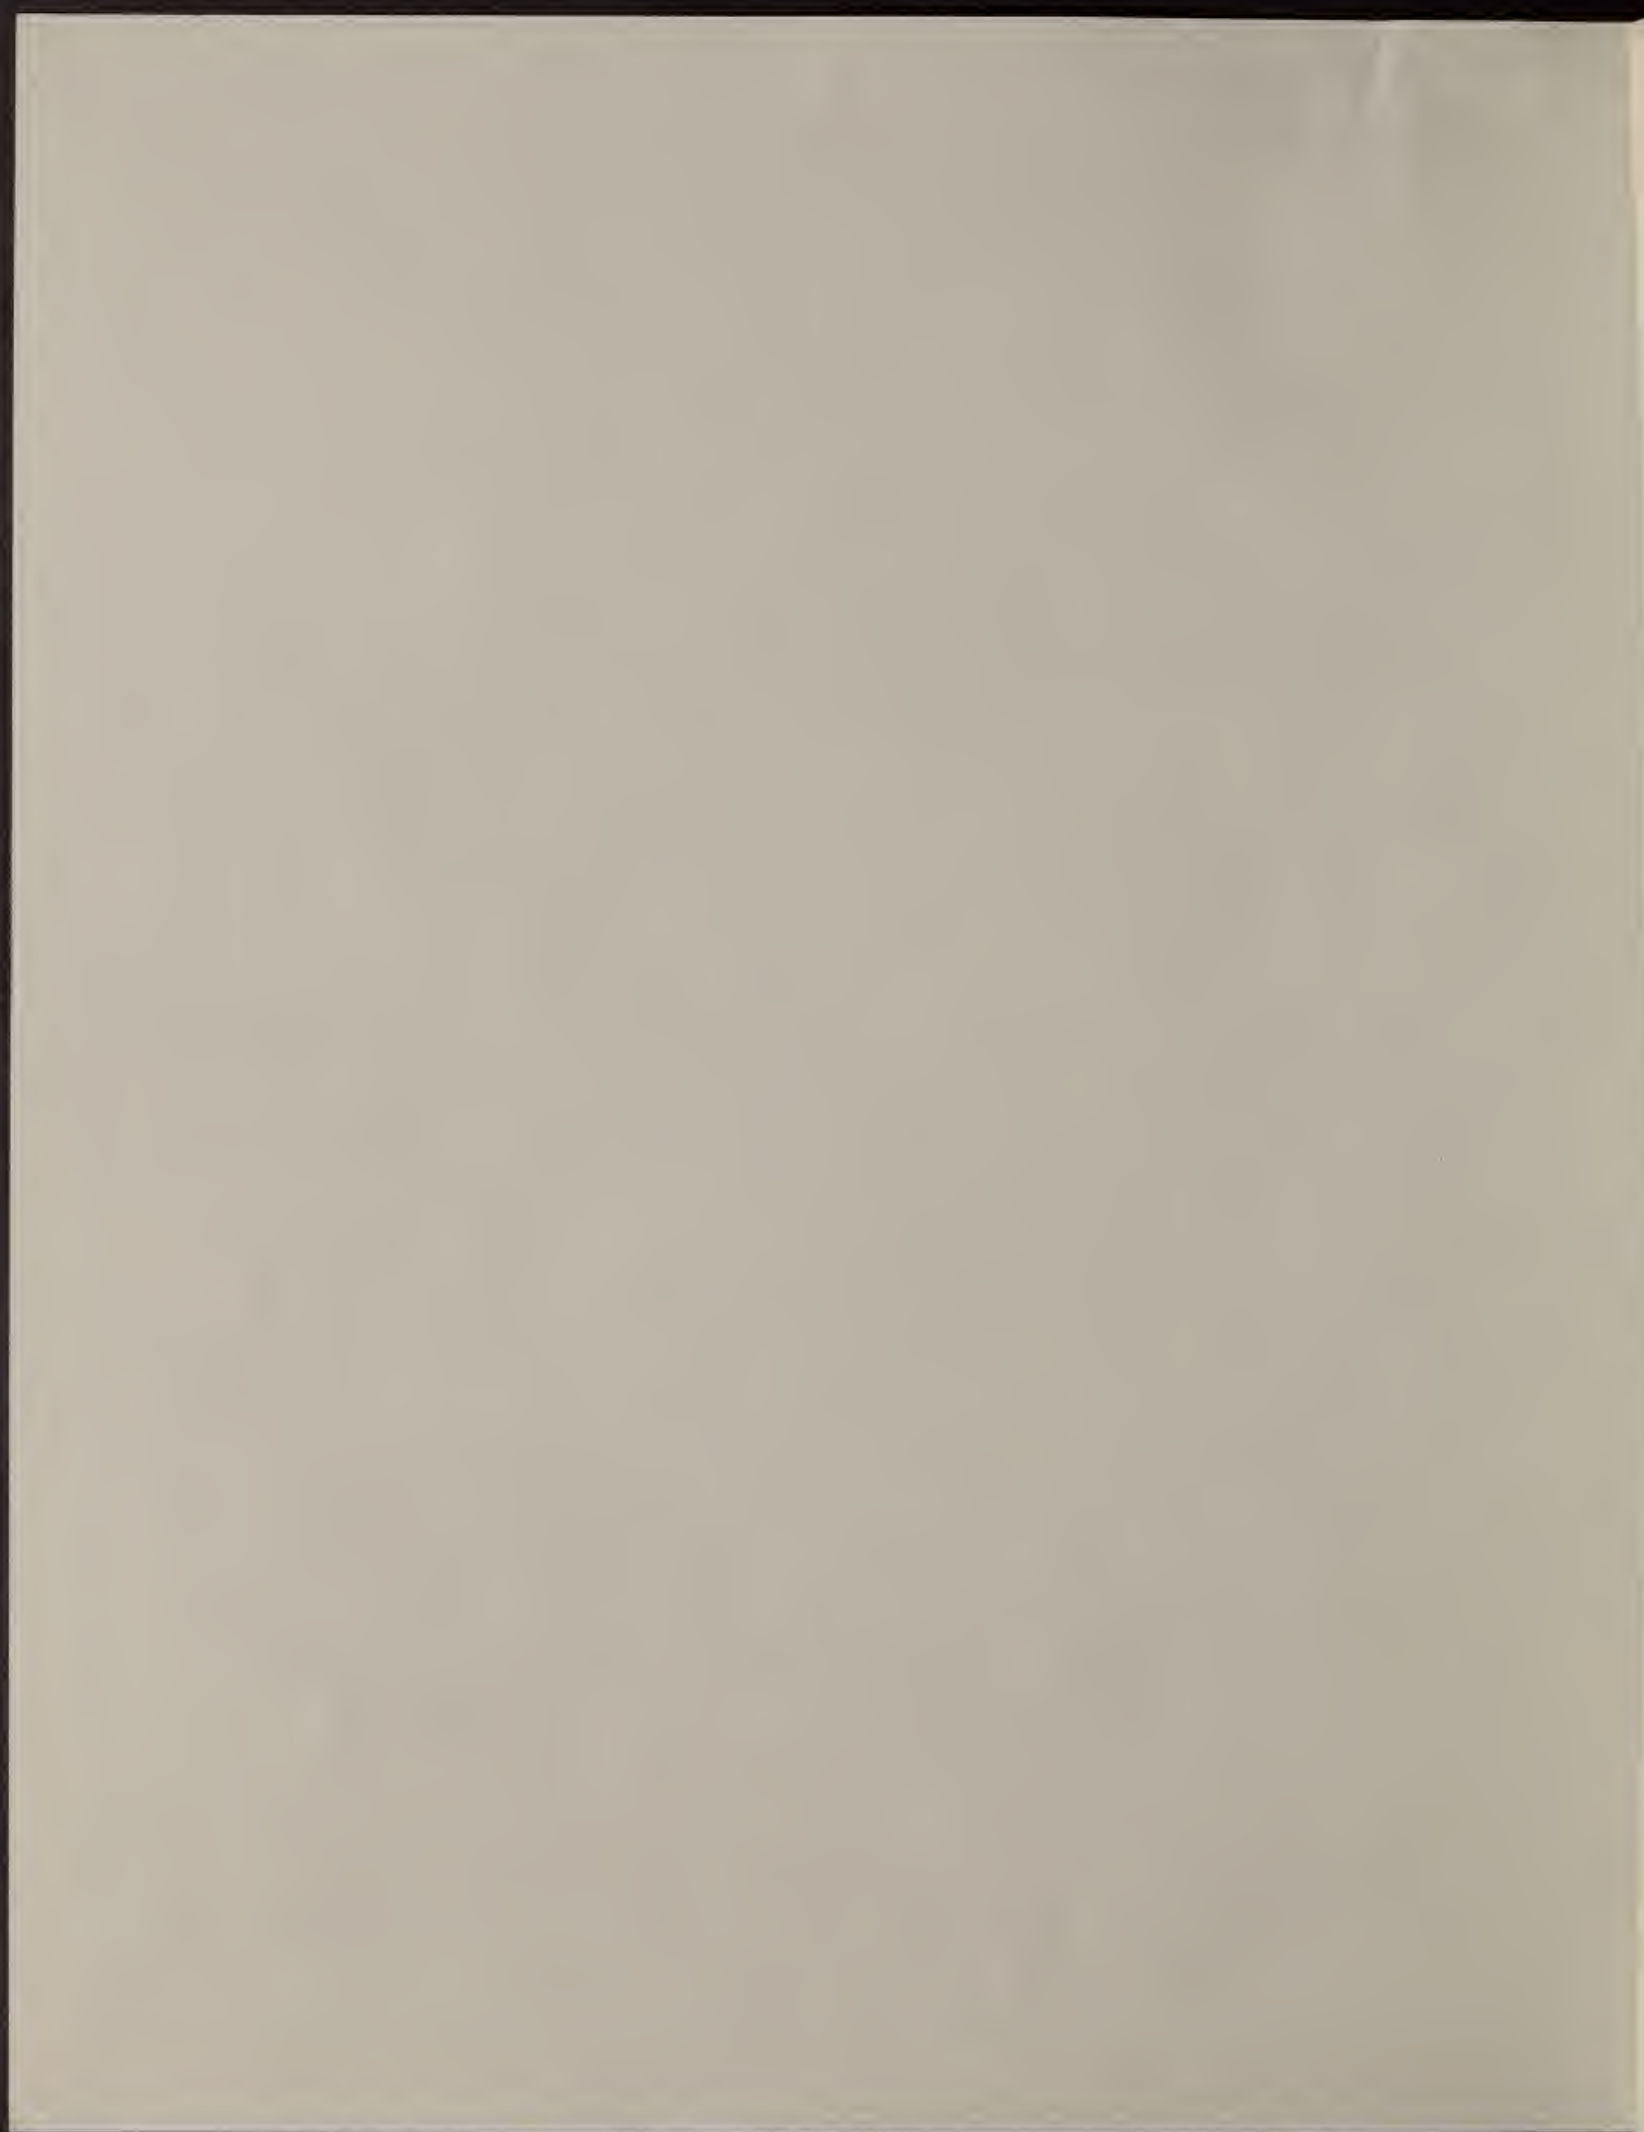

SUBJECT: Annual Meeting of Membership - 21 Feb 83.

1. There will be a membership meeting of the local Unit of Technocracy Inc. (Unit A, Regional Division 11353) at 8 pm. Monday, February 21st, 1983, in the 92nd Avenue Lounge (about opposite our office) in the HUB Mall of the University of Alberta, 9200 112th St., Edmonton.
2. A progress report will be presented, as well as a discussion of future activities. Membership cards for 1983 for our present membership have been received (31st Jan.) from CHQ and will be distributed at the meeting, together with collection of 1983 dues (\$9.00). Pledges and donations will also be welcomed, as usual.
3. "Technocracy Incorporated was formally established on April 8, 1933. That was the date of the signing of the incorporation papers. Nineteen eighty-three will mark its fiftieth year. It was born out of the unique soil, climate and geographical configuration of the North American continent. Technocracy has maintained its integrity down through the years. Members of the Organization can be justly proud of Technocracy's record." (From CHQ's General Mailing of 1 Dec 82.)
4. CHQ has advised, in response to our inquiry, that they do not have special plans for this observance; nor does this Unit, at this time. However, to mark the passing of this milestone, the Annual Spring Activity for the Pacific Northwest will be the scene of special events, centered at Everett, Washington, the weekend of March 19 & 20. If you can attend, contact us for more details.
5. YOUTH will be the theme of the next issue of Technocracy Digest (No. 267) from Vancouver. Their Section Activities Calendar for February writes: "Included are articles from members of the Edmonton Unit, whose office in the HUB Mall of the University of Alberta, is an ideal site from which to disperse literature to Students." We have ordered a total of 100 copies of the issue, 60 of which are extra to our regular bundle order and which are provided at a special price of 60 cents each. We will need your help to make best use of this topical material.
6. See you at the Membership Meeting on the 21st.

Walt Fryers
Walt Fryers, Treas.

Address: 11353 A, Technocracy Inc., 9203.S 112 St. Edmonton, Alta. T6G 2C5

No statement of policy shall be binding upon the organization unless issued from Continental Headquarters of Technocracy Inc.

Operations in 1981

REPORT TO THE MEMBERSHIP OF Unit A, R.D. 11353.

8 Feb 82.

Introduction:

We observed the fifth anniversary of our occupancy of the HUB office on 3 Feb. It has been a period of very slow growth. It was only after nearly four years of effort that we felt strong enough to convert to Unit status, on 1st Dec 80. However our presence on the Edmonton scene has been very visible to a considerable segment of the public. This could show up in membership response in the future, as economic conditions continue to deteriorate and the public seeks new answers to their problems.

1981 should have been a year of accelerated growth. It wasn't. The last half of the year, in particular, has been disappointing. There are several reasons for this. The main one seems to have been a lack of manpower, - in particular, a marked reduction in the manhours that I was able to put in. I signed up for a course in 'Futurology' on Tuesday evenings last Fall and so became unavailable for the Tuesday evening public meetings. I also became deeply involved - involuntarily - in an Education Project for Seniors at the Society for the Retired and Semi-retired. And as usual I took on a regular ~~xxxx~~ day course in the Arts Faculty of the University. Once committed, it becomes difficult to change course until a new semester begins. I am looking forward to a much lowered stress level in 1982. Other of our more active members also became involved in extraneous activities: Ross Deacon in a new business venture; Jack Gregory in the wind-up activities of his job and his retirement; Howard Rennick in evening courses; Valerie Newcombe in a ~~xxx~~ move to another house; and so on.

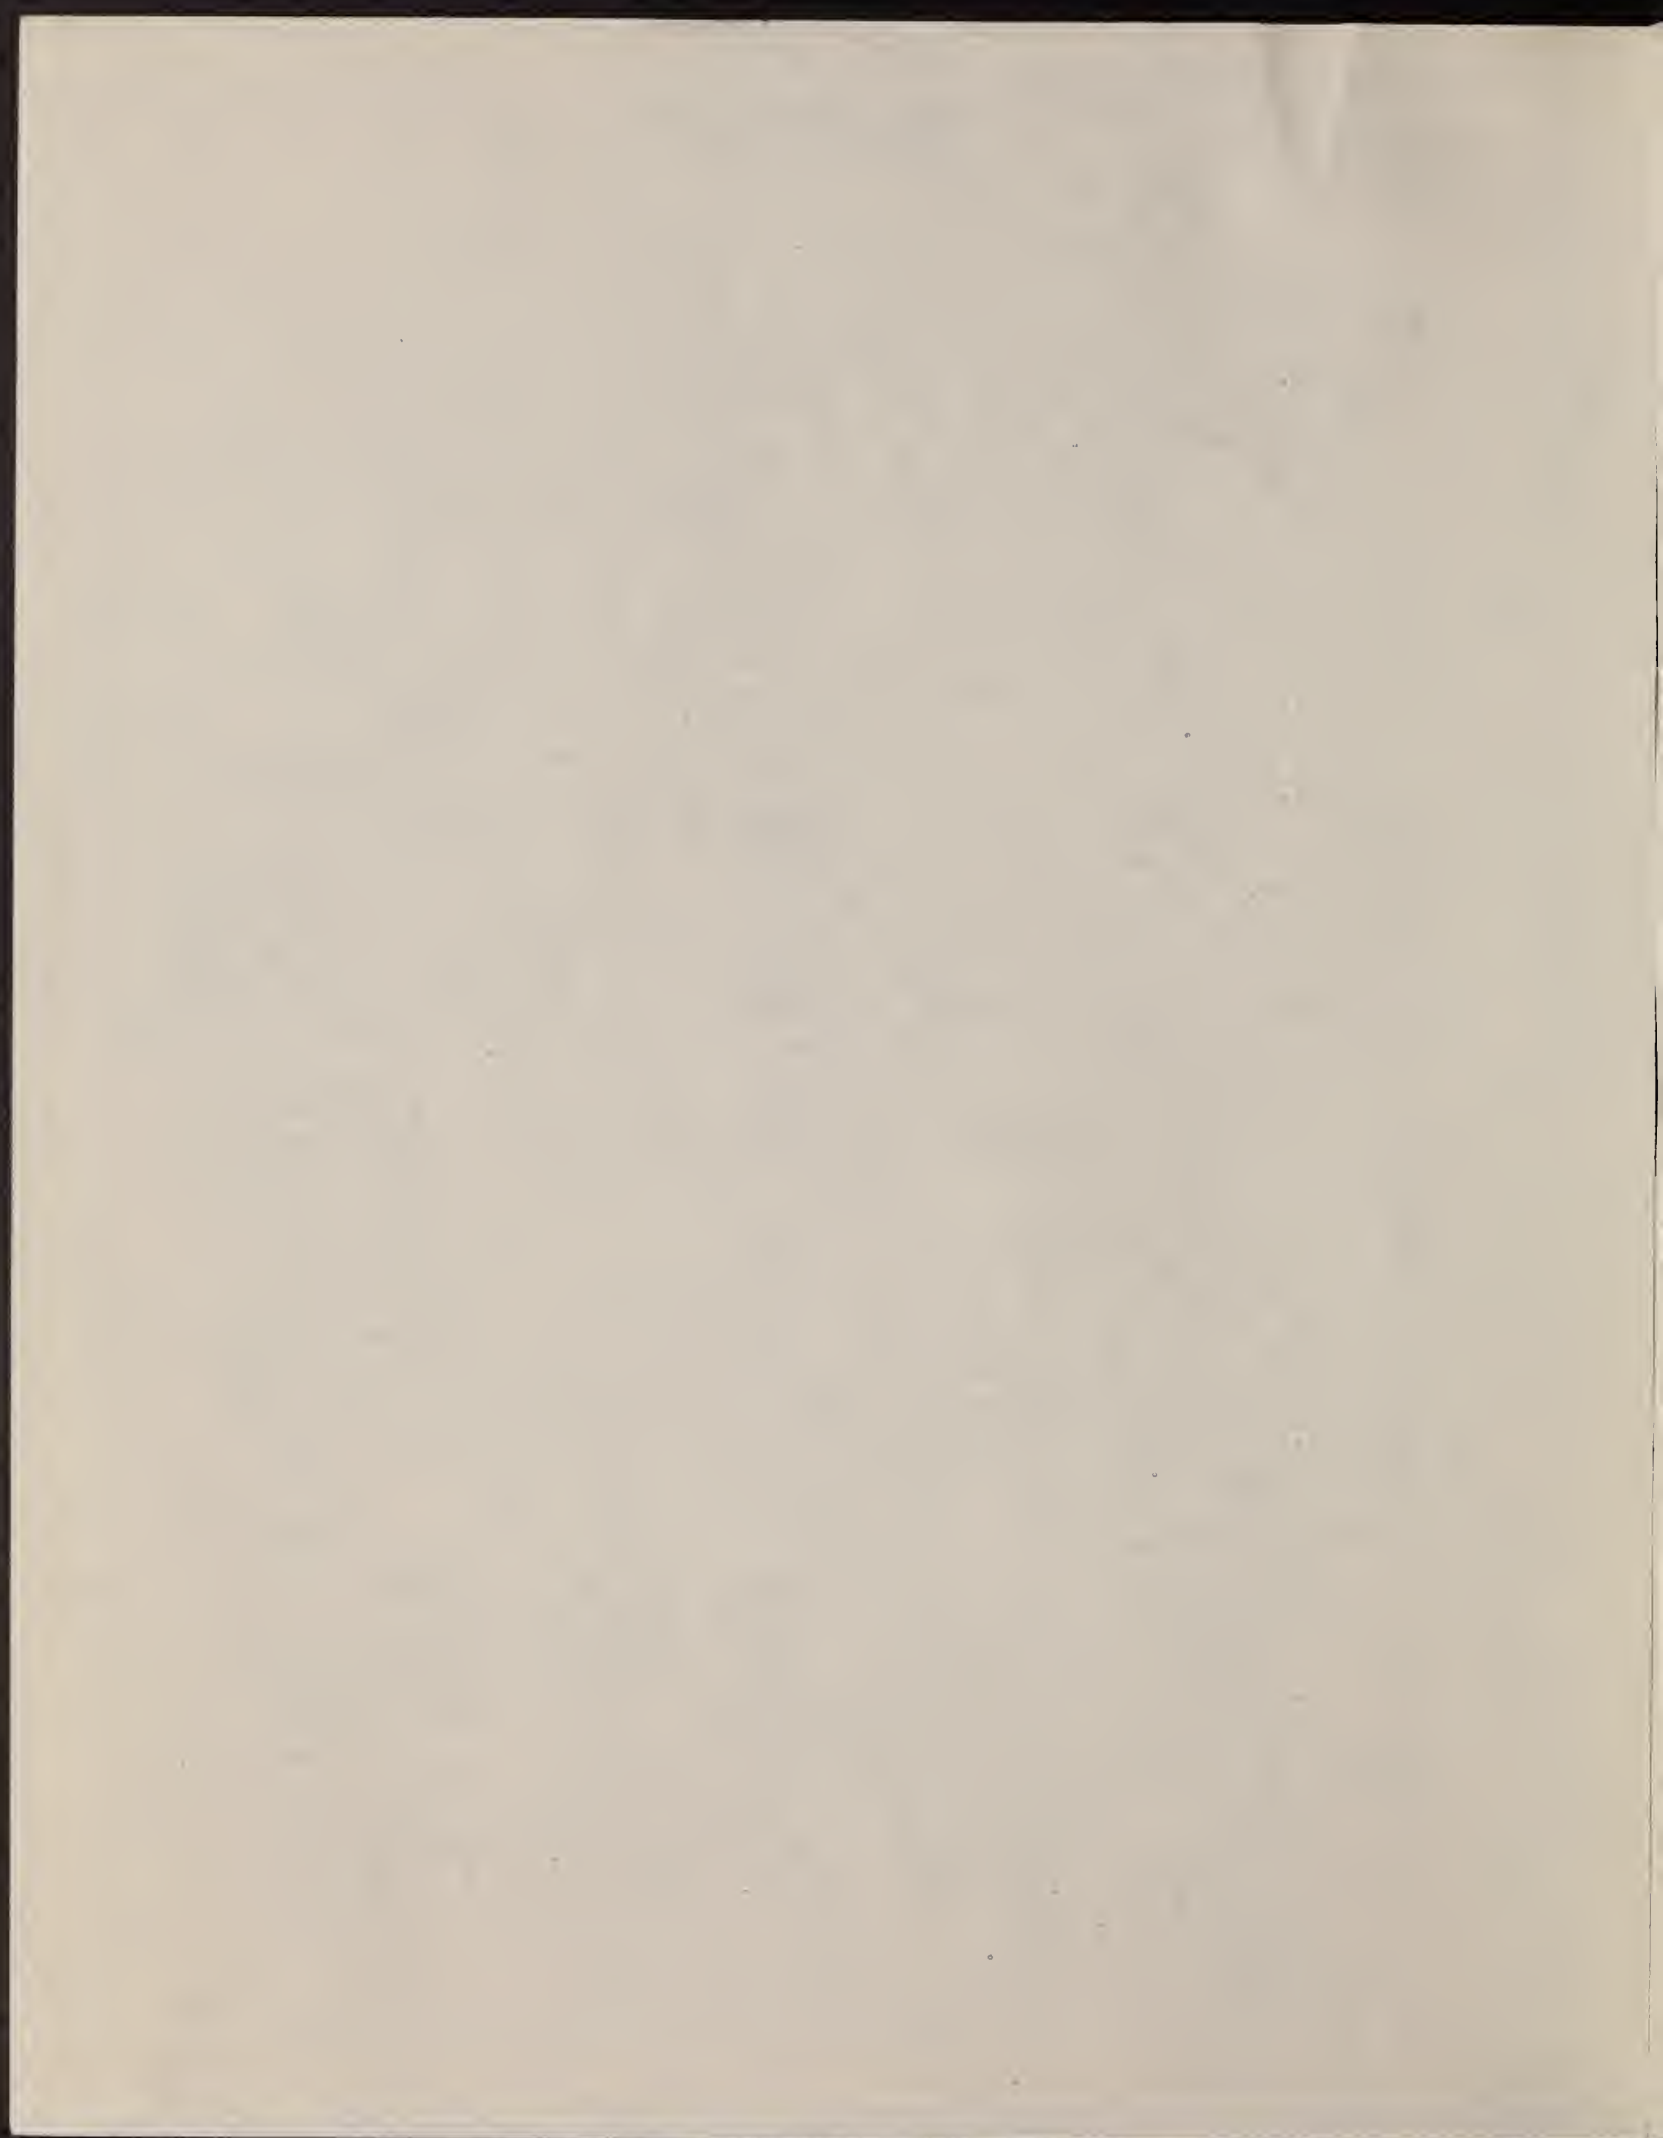

^{us}
1982 gives ^{one} another chance at renewed growth if we have enough members to provide support in manhours and money that ~~xxxxxx~~ are necessary for a dynamic program.

Re Staffing and Office Hours

Regular staffing of the office between 2 and 4:30 pm on weekdays was carried out normally the first half of the year. After the summer break the coverage became irregular and much reduced, although mail and messages were checked daily. Administration was minimized and in some respects, defaulted. No one has come forward to share the office manning chore with the Organizer as yet.

Re Public Meetings

It has been our Unit's policy to provide the public with ~~xxx~~ an open meeting one evening a week, in one of the lounges in The HUB, and to advertise the meeting as widely as possible. In 1981 the evening chosen was Tuesday evening. The response has never been great, varying between a minimum of none, and a maximum of 6. In the first half of 1981 we held 27 such meetings, with a recorded number of visitors of 20, thus averaging less than 1 per meeting. Films were shown on 11 occasions. Formal presentations of Technocracy were made on 8 occasions. Talks were always supported with Vu-graph slides. The last half of 1981 saw a drastic reduction in such meetings: ~~none~~ in September, 2 in October; 4 in Nov., and ~~xxxx~~ 2 in Dec. for a total of 8 for the half year and 35 for the year. The record shows 7 visitors in the last half year, for a total of 27 for the year. This would seem, then, to be an unproductive effort. Our special presentations were far more productive. However it is thought well worth while to maintain our accessibility and visibility with weekly meetings however poorly attended.

Our special presentations were more productive. On Feb. 26 and 27 we manned a booth at the Greater Edmonton Teachers' Convention in the Plaza Hotel. There were no sign-ups, but a goodly quantity of literature was distributed. The cost was \$110, but probably worth it. With a potential attendance of some 5000, we made a significant gain in visibility too.

On the same weekend we manned tables in the HUB Mall for the U of A's Orientation Days. A request for a classroom presentation came from this.

On 8 April, Jack Gregory gave a talk on Technocracy to a Political Science class, with 24 students present.

On 2 May we supplied a quantity of literature to the University Women's Club for a seminar on Energy held in Lister Hall.

On 17, 18 & 19 Aug. we ~~xxxx~~ attended an International Forum on the Human Side of Energy here at the University and presented a paper on Technocracy on 18 Aug. to an audience of 20, including 3 members. Some 50 copies of our paper were ~~distributed~~ picked up by interested attendees.

A booth in....The Flea Market in the Students' Union Bldg. was manned only once in 1981 - on 9 Jan. No decision has been made on continuing that function.

Our practice in previous years of manning table in the HUB Mall on one or two days of the week was dropped in 1981 due to lack of manpower.

SPEAKERS TROUBS

We can report no tours of public speakers for Technocracy this past year, at least in this prairie area. Two reasons, at least, ~~xxx~~ can be cited: 1. there seems to be a dearth of outstanding speakers available; and 2nd - there is little public response to this sort of public action. The media, especiall TV, now command such attention, that only the most spectacular public events can be assured of a suitable response.

RADIO AND TV PRESENTATIONS

No action in this direction. There may be a potential here, but we are not in a position to take the initiative.

PRESS

Same as for TV and radio.

VISITORS IN AND OUT

We have had our usual quota of visits from nearby members and MLs. This includes Louie Kildaw of North Battleford and Art Shaw of Daysland. Also Helen Diemert of Calgary. ~~and~~ We previously reported the visit of John Waring of Washington, D.C. on 15, 16 & 17 Jan 1981, accompanied by Helen Diemert.

Ross Deacon was out to Vancouver to attend a session of their annual Fall Area Meet on Labor Day. I was out to the coast in late June and early July and visited several Units, including Victoria, Vancouver and Seattle.

Re Research

Our re search department is mostly a clipping service carried out assiduously by Valerie Newcombe. We should be making more use of these compilations while they are still current. We also get clippings and book and magazine items from various correspondents elsewhere, particularly John Taube of San Francisco. We have had a few from Jack Hazell of Buffalo Ky., and a few from Jim Davidson of Winnipeg, plus items from Louie Kildaw of North Battleford.

Perhaps our most noteworthy single item was the paper prepared by Jack Gregory and Walt Fryers and presented to the International Forum on the Human Side of Energy last August. CHQ complimented us on the research involved. And it may be published in the Digest eventually.

Distribution of Literature

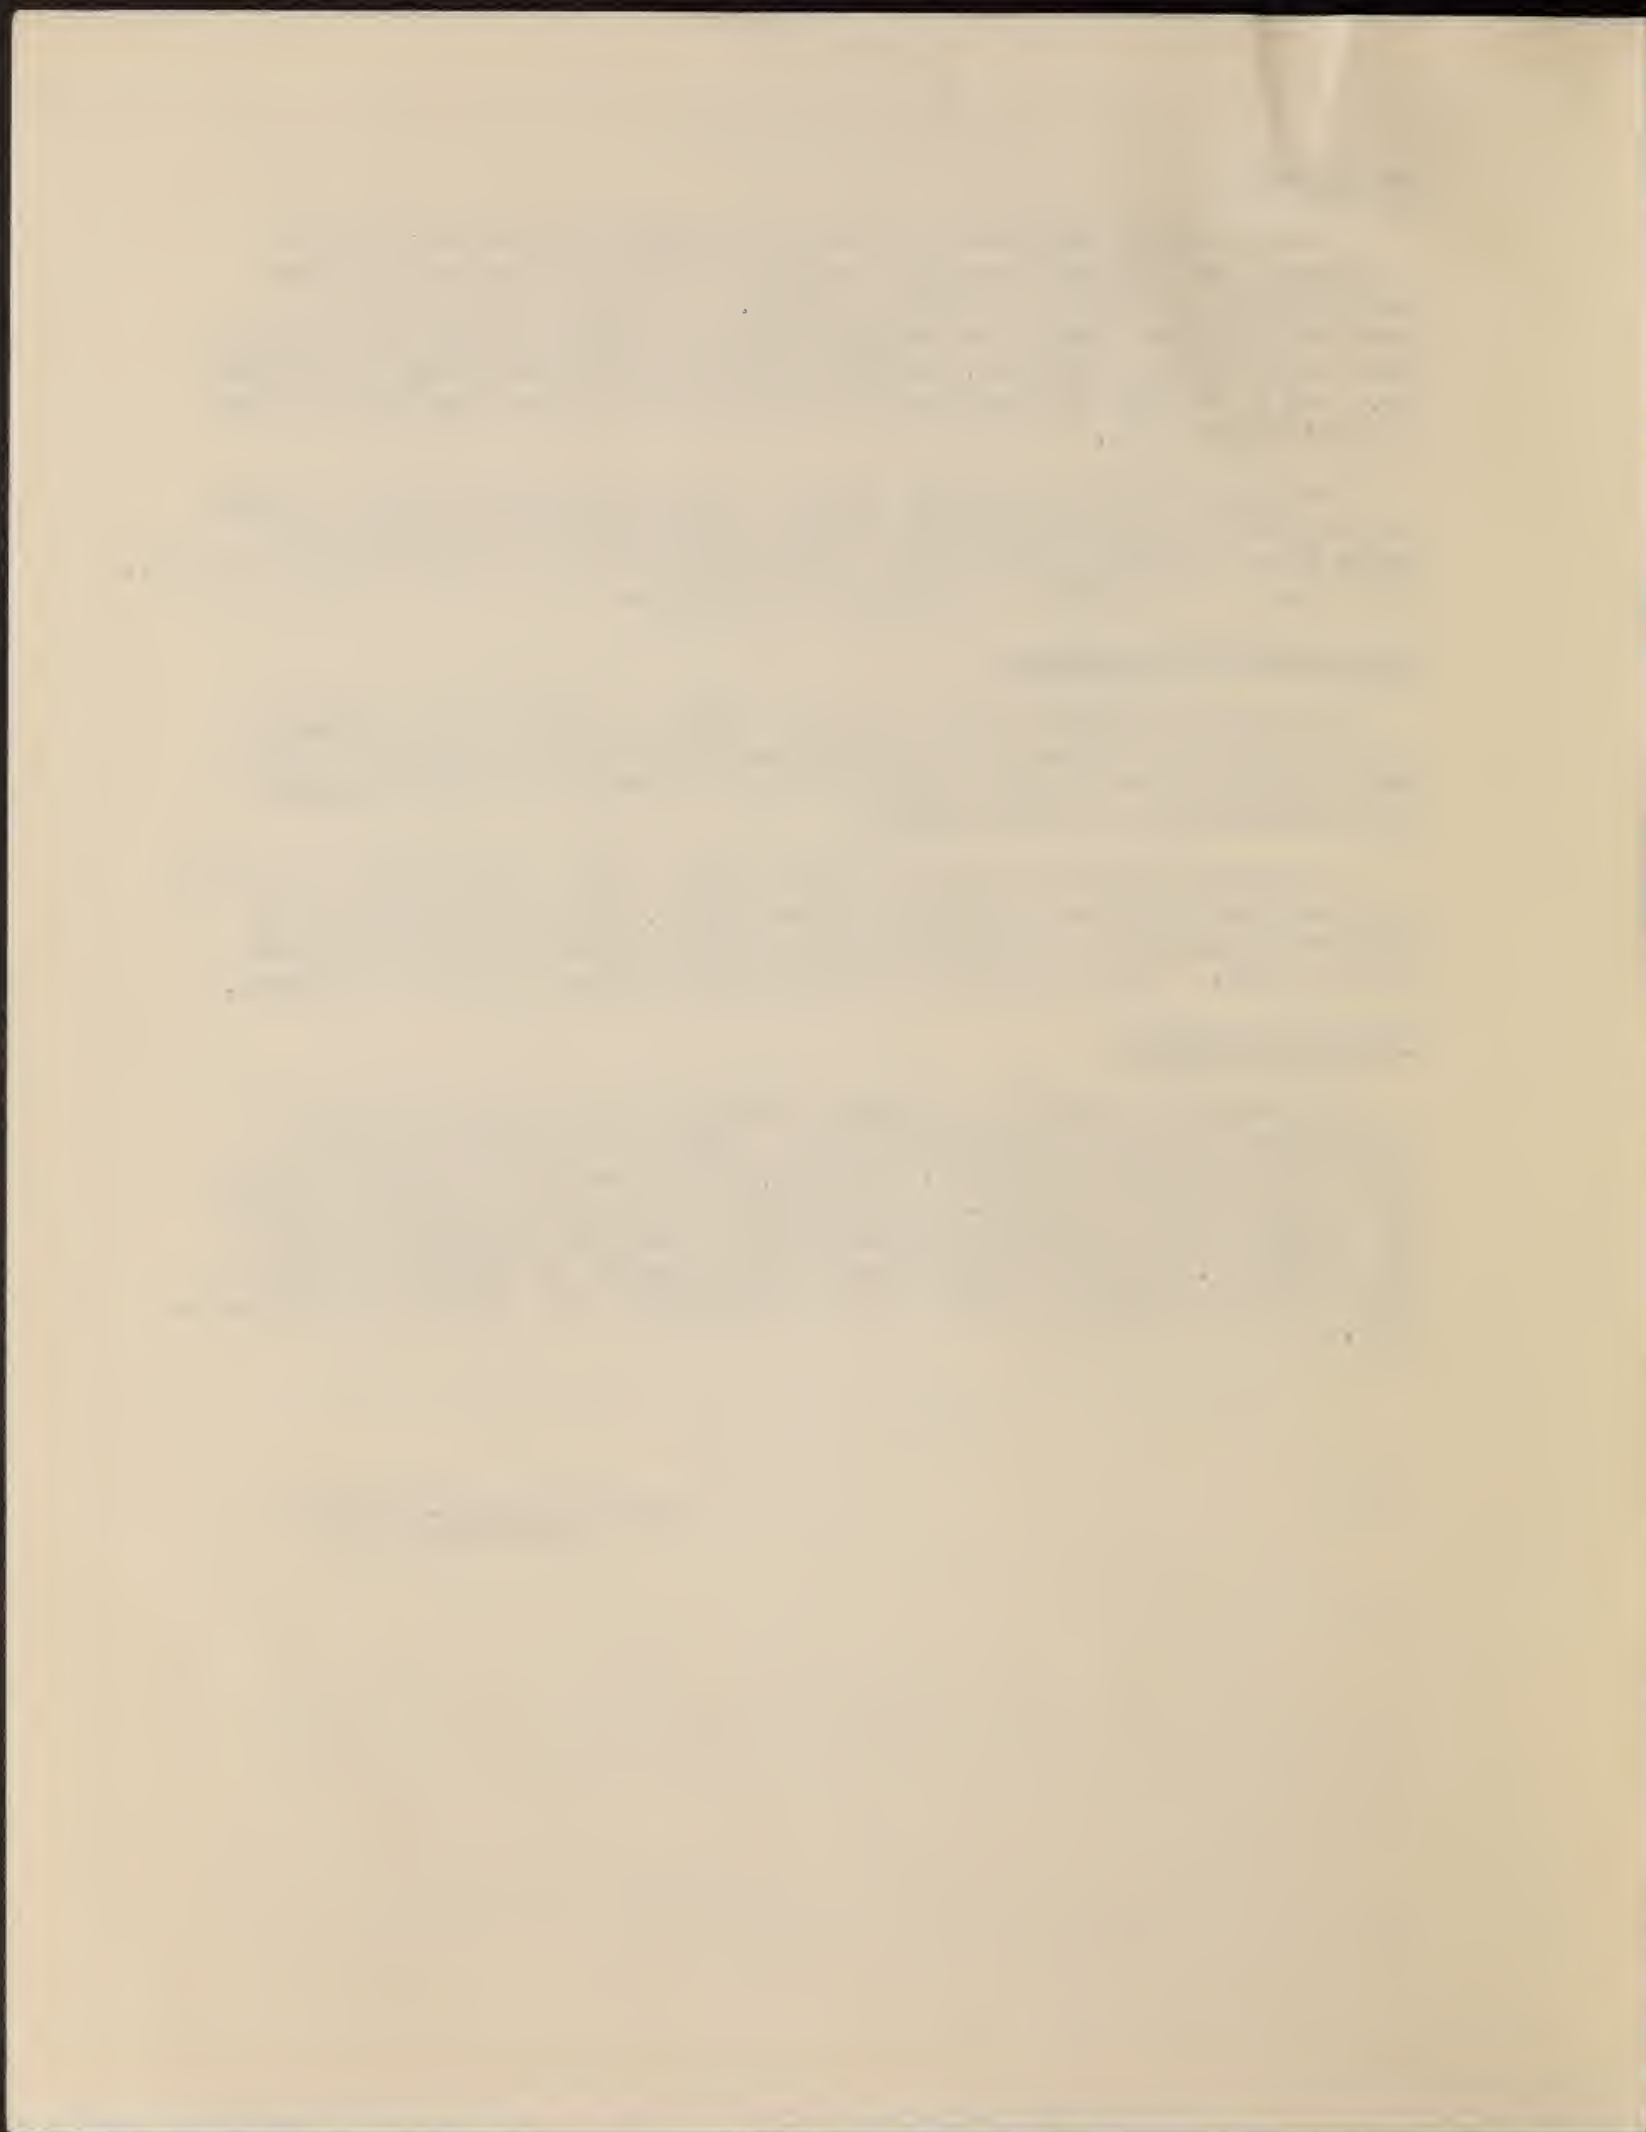

We have no detailed tally of this activity. However the two Take-One boxes outside our office are regularly re-filled and the record on these shows 2200 dispensed during the year 1981. A further few were dispensed by the Take-One box in the Laundromat.

In sharp contrast to last two years, we have not ordered much literature. I picked some up while at Seattle in the summer. Of note is the load of back issue magazines picked up at Seattle and Vancouver - probably about 200 all told. These have almost all been distributed free by our members.

Financial Statement

We began the year with a sizeable deficit due to heavy purchases of literature in late 1980 and early 1981. This was paid off by a final Money Order for \$243.64 on Nov. 20, 1981, and we were able to end the year with a cash balance of \$336.42, and all bills paid. Our financial recovery was largely due to generous assistance from donations from other parts of the continent. We would like to be able to finance our office operation from local resources and reserve all contributions from outside for extension work.

11353-A
TECHNOCRACY
INC.

1st February 1982

To All Members in the Edmonton Region

1. There will be a membership meeting of the local unit of Technocracy Inc. (Unit A, Regional Division 11353) at 8 pm, Monday, February 8th, 1982, in the 92nd Ave. Lounge (opposite our office) in the HUB Building of the University of Alberta, 9200 112th St., Edmonton.
2. A progress report will be presented, as well as a discussion of future activities.
3. The Edmonton Unit is playing an increasingly important role in the continental structure of Technocracy. Support for our program has been offered from all corners of the continent. Our policy will continue to be to support the basic operation of the Unit and its office from local resources, and to apply all contributions from outside the Unit to extension activities. For example, our application for a booth at the Greater Edmonton Teachers' Convention in the Westin Hotel, 25 & 26 February has been accepted. Cost to us will be \$120 for the 2 days. It will be manned by volunteers. There are many other directions and projects open to us, limited as usual by available money and 'labor'.
4. All members in this area are urged to attend this meet to learn of present activities and to participate in planning additional programs.

Walt Fryers

Walt Fryers,
Organizer, Unit A, R.D. 11353.

Address: 11353 A, Technocracy Inc., 9203.S 112 St. EDMONTON, Alta. T6G 2C5

No statement of policy shall be binding upon the organization unless issued from Continental Headquarters of Technocracy Inc.

11353-A
TECHNOCRACY
INC.

21 June 1981

TO: Members 11353-A and area.

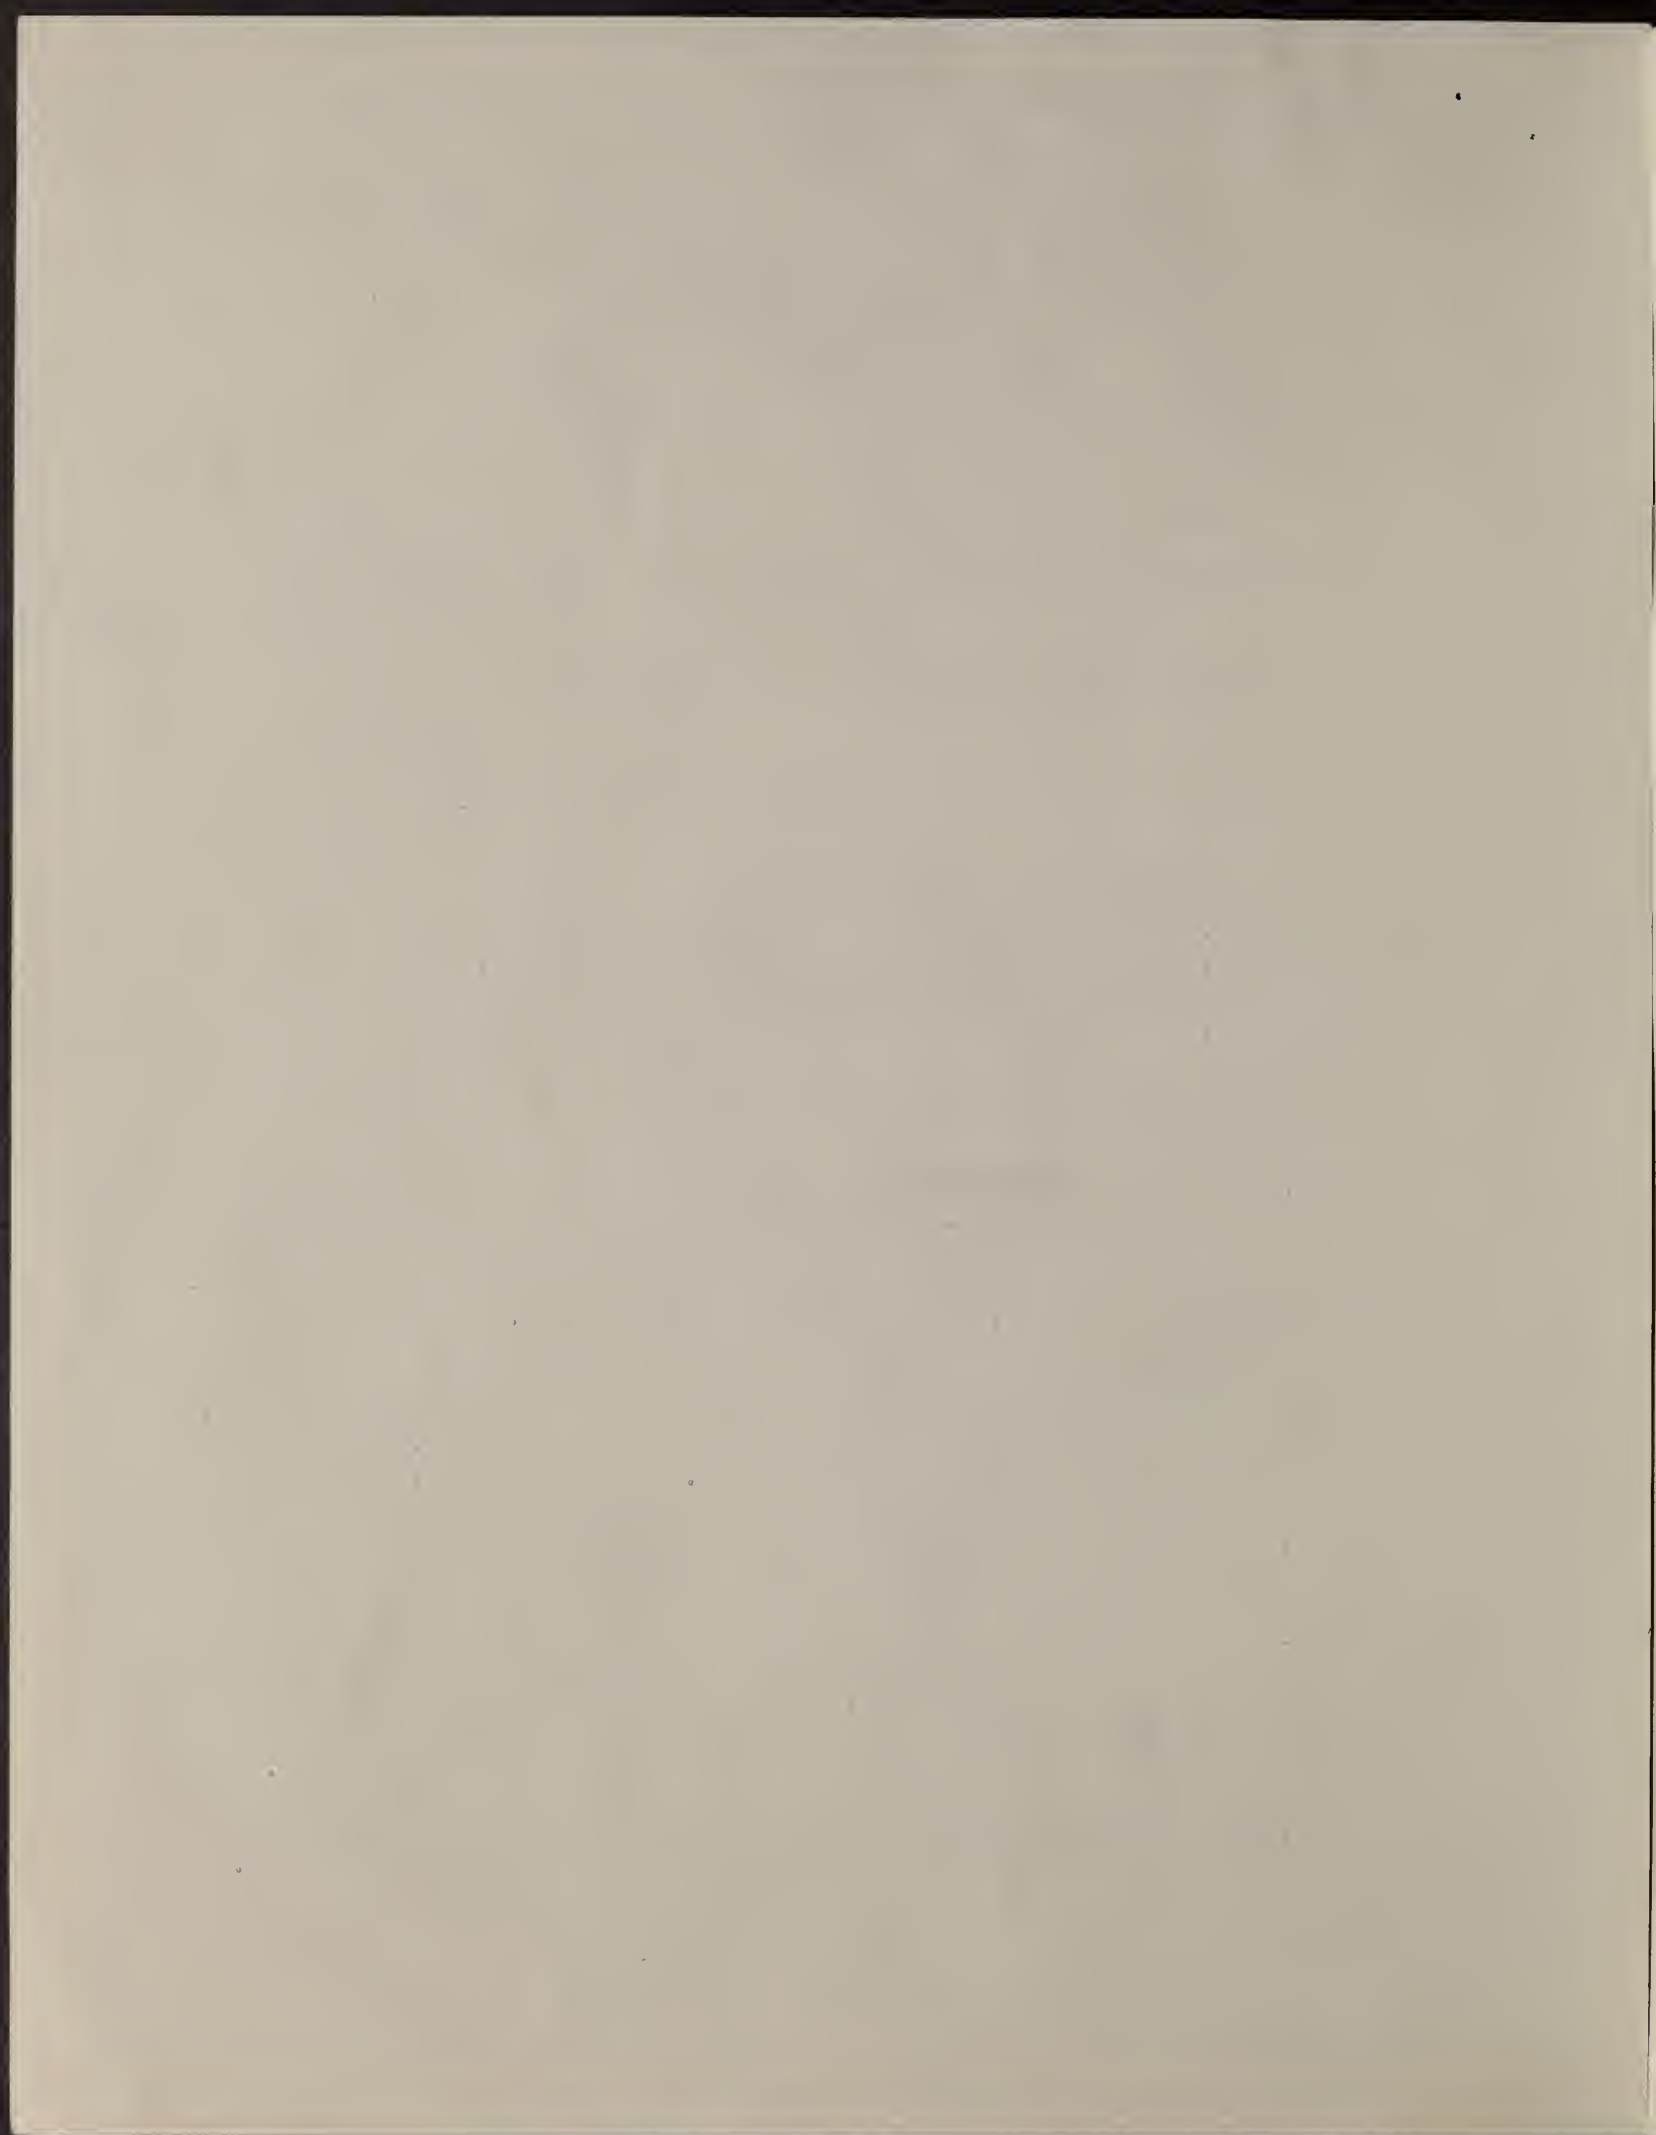

SUBJECT: Report on Membership Meeting of May 25, 1981, held at 8 pm
in Rocking Chair Lounge, HUB Mall, U of A Campus. Chairman: J. Gregory.

A. Report on activities of 1980-81 winter season.

1. The office at 9203.S 112th St., HUB Mall, has been staffed by Walt Fryers 2:00 pm to 4:30 pm daily during week days to receive visitors and carry out various administrative duties.
2. Public meetings were held on Tuesday evenings in the Rocking Chair Lounge, HUB. The programs included:
 - a. Basic presentation on Technocracy. (Lecturer usually Jack Gregory).
 - b. Current affairs, by Walt Fryers and others.
 - c. Science films (irregularly).
 - d. Membership business meetings when convenient.
3. Manning of booth at Flea Market in Student Union Bldg., on Friday afternoons (from 10 to 4); periodic.
4. Manning of literature display at north end of HUB, Wednesday noon to 4 pm. Intermittent.
5. Presentation on Technocracy to a Political Science class, 8 April. 24 students present. Some literature distributed.
6. Two-day manned display at Greater Edmonton Teachers' Convention, at Edmonton Plaza, 26, 27 Feb. Potential attendance stated as 5,000. (This was a trial project for this Unit. Cost was \$105. A large quantity of literature was distributed, much of it free).
7. Manned display in HUB at annual 'Orientation Days,' 27 Feb. (Formerly called Varsity Guest Weekend.)
8. Visits by members from far and near, including: Louise Franklin-Ramirez of Washington, D.C. on 22, 23 Oct. 1980; John Waring of Washington, D.C. on 15, 16 & 17 Jan, 1981, accompanied by Helen Diemert of Calgary; Jahn Hazell of Buffalo, Kentucky on 23 Feb. 1981. Other visitors came from North Battleford, Calgary, Daysland, etc. etc.
9. Compilation of press clippings for Research was carried out by Valerie Newcombe, who also continued with organization of archives.

Address: 11353 A, Technocracy Inc., 9203.S 112 St. Edmonton, Alta. T6G 2C5

No statement of policy shall be binding upon the organization unless issued from Continental Headquarters of Technocracy Inc.

10. The Edmonton membership converted from Member-at-large status to Unit status as of 1st Dec. 1980, with 15 members signing the original application. Members in this area who have not yet signed 'Transfer' form to this Unit are requested to contact the office and arrange to do so.

11. Several letters to the Editor of the Edmonton Journal have been prepared and published by members of this Unit.

12. Dissemination of literature has been substantial as the following summary of literature orders would indicate:

	<u>T.T.S.D.s</u>	<u>Briefs</u>	<u>Monthly Orders Magazines (each)</u>
1977.....	75	4000	-
1978.....	75	6000	10
1979.....	150	16,500	20
1980.....	200	6,000	40
1981.....	?	?	?

(Note - the large orders for Briefs in 1979 was a case of stocking-up.)

B. Discussion of Future Activities

1. Continue and enhance present activities.
2. Make speakers available to outside organizations and groups:
 - continue mailing campaign to offer speakers
 - members are invited to offer a speaker to their respective circles.
3. Intensified literature distribution.
4. Preparation of article on Technocracy for the forthcoming New Canadian Encyclopedia to be published here in Edmonton.
5. Presentation of a paper on Technocracy to the 2nd International Forum on "The Human Side of Energy" to be hosted by the Extension Faculty of the U. of A., on Aug. 16 to 19, 1981. Out presentation, entitled: "Structural Changes in North American Society, Its Institutions and its Economy, Resulting from Increasing Energy Conversion Rates" has been accepted by the program authority.
6. Distribution of the video tapes on Technocracy prepared by Arvid Petersen. They comprise a 2-part series, titled "Technocracy - An Alternate Social System", each of 27 minutes duration. Part I is labelled "America's Dilemma". Part II is labelled "Functional Social Design".

C. Financial Statement.

1. Lacking a Treasurer until recently (1st Dec. 1980), comprehensive financial statements have not been regularly prepared. However complete records have been kept and these are open to inspection. Commencing with our authorization as a Unit, complete monthly financial statements are being prepared and submitted to CHQ for approval.
2. This office, now 4½ years old, has operated on something of a hand-to-mouth basis. Our slow but steady growth has been supported by a fortunate but somewhat irregular combination of pledges and donations.

We were able to close out 1980 with all bills paid and \$491.98 in the bank.

3. However, 1981 has been characterized by a marked reduction in support. At this writing our monthly income has dropped to roughly half of last year's. On June 16th, our bank balance dropped to \$5.41, with an account for literature still outstanding. (Insurance alone took \$172 on 23 Apr.)

4. Part of the problem is inflation, of course. A check of the Consumer Price Index since we opened our doors shows that \$1.00 at the beginning of 1977 must be replaced by at least \$1.55 at the end of this year. This provides a measure of how our expenses have increased and how a steady rate of month contributions have decreased in effectiveness.

5. Our operation is still relatively small. We can keep the door open on \$150 a month. We can cover normal operating expenses at about \$200 a month. We can undertake extension work and new initiatives at about \$250 a month. An average monthly rate of contributions on the part of our members of just \$10.00 a month would assure a successful operation at this stage. Is the effort worth it, to you?

D. Membership Participation in the Promotion of Technocracy

1. The workload of promoting Technocracy in this Unit has fallen essentially on the Organizer, Walt Fryers. Members are requested to offer assistance in any of the following activities:

- a. New Membership: Increasing the membership through contacts, follow-ups of Expression of Interest Cards, etc.
- b. Education: Organize and conduct study classes on Technocracy and current events.
- c. Research: Collect, systematically organize, interpret, and present relevant published material.
- d. Finance: Aid in collecting dues, seek special contributions and pledges, originate other acceptable means of adding to income.
- e. Publications: Dissemination of Technocracy literature. Prepare material for Technocracy and outside publications. Encourage submission of such material from members.
- f. Public Speaking: Training of speakers for presentation of Technocracy.
- g. Organization: Assist in the organization of meetings and other activities for the promotion of Technocracy.

Prepared by: Jack Gregory

Addresses
for Special Mailing List.

Charles Spencer, Gen. Del., Ma-Me-O Beach, Alta.
John Waring, 1320-1 S. George Macon Dr. Arlington, Va. 22204.

The first part of the paper is devoted to a discussion of the general principles of the theory of the structure of the atom. It is shown that the structure of the atom is determined by the laws of quantum mechanics, and that the structure of the atom is determined by the laws of quantum mechanics.

ANNOUNCING
A
PUBLIC MEETING

WHERE: Calgary. Probably at the U. of Calgary. Locus TBA.

WHEN: 24 Feb 89. (A Friday). Time TBA.

SUBJECT: "Technocracy Presents: Doorway to the Future", or as arranged with the speaker.

SPEAKER: Ron Miller, a recently authoeized s peaker from Portland, Cre.

ADMISSION: Free to the public. Members are urged to attend. Bring a friend.

ADDITIONAL NOTES

The Calgary 'Group' suffered a serious set-back with the death of their secretary - Bonnie Gebhardt - last summer. However Organizer Oscar Isaac of Medicine Hat has persevered, with the added help now of Helen Diemert. Helen was a professor in fine arts at the University of Calgary,, now retired, and is determined to put more time and effort into promoting Technocracy Inc. in Calgary and Alberta. She is the new secretary of the group. She has the advantage of continuing connections with the university and will be able to arrange space and time for a meeting at the university for little cost.

The last issue of the Vancouver Section's 'Activities Calendar' included the announcement: "Organizer Oscar Isaac informs us that Ron Miller has accepted the assignment to speak at the University of Calgary on February 24, 1989. A trip to Edmonton may be included in this ground breaking venture."

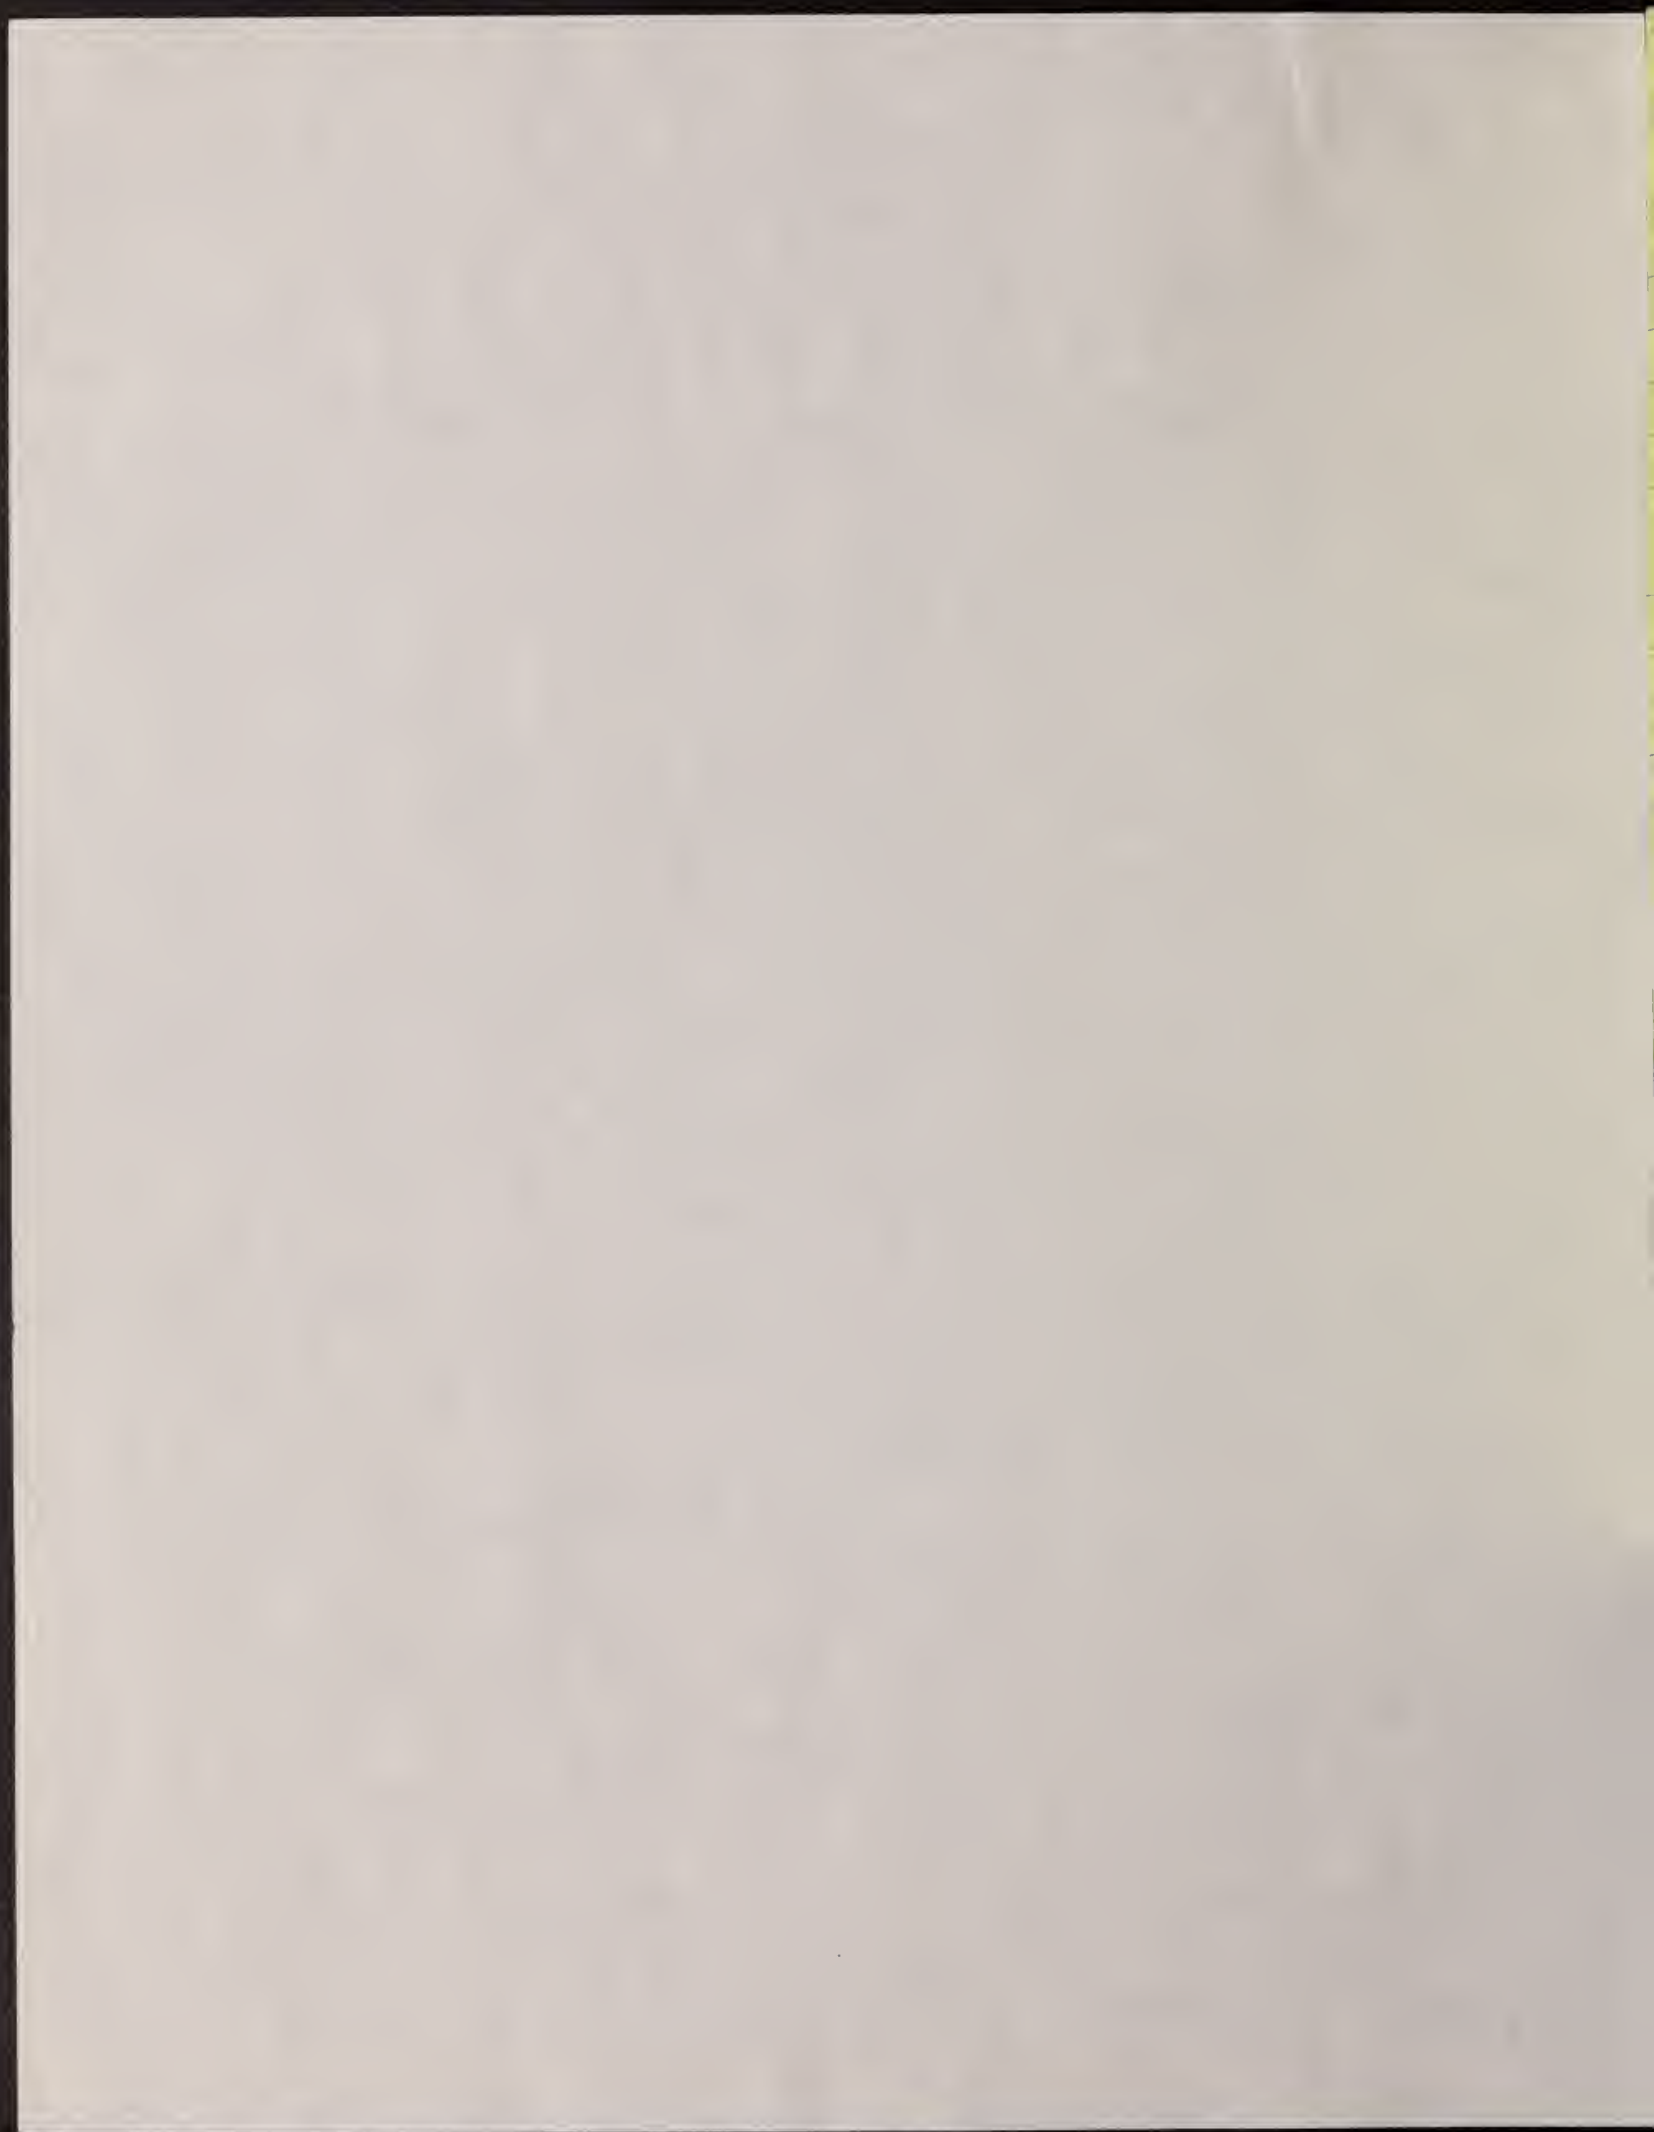

And in fact we did have a phone call (to Walt Fryers) from Oscar and Helen on Friday, 3rd Feb 89, proposing that we should sponsor a meeting here, using the speaker Ron Miller, who would be at Calgary for two days, Friday and Saturday, 24th and 25th February. The idea was rejected, as there is no one here to carry out the organizing work necessary for such a meeting.

Helen said that attendance by members from Edmonton "would be the icing on the cake" for the Calgary group. It appears they have less than a dozen members for support at Calgary now. They will be advertising to the public and especially to the university. They will try to interest university staff with the hope that a class or two might be assigned to attend for suitable course material. But membership support remains critical as the only guaranteed source of an audience. Formembers from outsideCalgary, Helen will try to help such visitors find convenient hotel accommodation near the university. She may be reached at: 2312 24th Ave. NW, (T2M 2A1) or at phone No. 284 2860.

The last get-together of Edmonton members was 16 Feb 88. This year it is planned for 14 Feb 89. There is no organized plan of activity here. The above meeting in Calgary is probably the only formal activity in this area this year. Are you interested?

The first part of the paper discusses the importance of maintaining accurate records of all transactions. It emphasizes that proper record-keeping is essential for the success of any business or organization. The author notes that without accurate records, it is difficult to track income and expenses, which can lead to financial mismanagement.

The second part of the paper focuses on the importance of budgeting. The author argues that a well-defined budget is crucial for controlling costs and ensuring that the organization remains financially sound. It suggests that budgeting should be a regular and ongoing process, allowing for adjustments as needed.

The third part of the paper discusses the importance of maintaining accurate records of all transactions. It emphasizes that proper record-keeping is essential for the success of any business or organization. The author notes that without accurate records, it is difficult to track income and expenses, which can lead to financial mismanagement.

The fourth part of the paper focuses on the importance of budgeting. The author argues that a well-defined budget is crucial for controlling costs and ensuring that the organization remains financially sound. It suggests that budgeting should be a regular and ongoing process, allowing for adjustments as needed.

The fifth part of the paper discusses the importance of maintaining accurate records of all transactions. It emphasizes that proper record-keeping is essential for the success of any business or organization. The author notes that without accurate records, it is difficult to track income and expenses, which can lead to financial mismanagement.

The sixth part of the paper focuses on the importance of budgeting. The author argues that a well-defined budget is crucial for controlling costs and ensuring that the organization remains financially sound. It suggests that budgeting should be a regular and ongoing process, allowing for adjustments as needed.

The seventh part of the paper discusses the importance of maintaining accurate records of all transactions. It emphasizes that proper record-keeping is essential for the success of any business or organization. The author notes that without accurate records, it is difficult to track income and expenses, which can lead to financial mismanagement.

The eighth part of the paper focuses on the importance of budgeting. The author argues that a well-defined budget is crucial for controlling costs and ensuring that the organization remains financially sound. It suggests that budgeting should be a regular and ongoing process, allowing for adjustments as needed.

The ninth part of the paper discusses the importance of maintaining accurate records of all transactions. It emphasizes that proper record-keeping is essential for the success of any business or organization. The author notes that without accurate records, it is difficult to track income and expenses, which can lead to financial mismanagement.

The tenth part of the paper focuses on the importance of budgeting. The author argues that a well-defined budget is crucial for controlling costs and ensuring that the organization remains financially sound. It suggests that budgeting should be a regular and ongoing process, allowing for adjustments as needed.
